Certificate of Conformity

Certificate of conformity relating to the above machine will be supplied in the machine manual located in the standard tool kit box. This certificate can be found in the front section of the manual and we would ask that this be retained for reference, within your Company's technical documentation.

Health and Safety

As working conditions and operating procedures vary significantly among users and are outside the control and/or knowledge of ARBURG Ltd please note the necessity of the end user to provide all the essential special equipment and accessories to enable the machine to be adjusted, maintained and used without risk. This is in accordance with the safety instructions supplied with the machine and may be used as guidance in conjunction with the Management of Health & Safety at Work Regulations.

Commissioning

Our prices include the commissioning of the machine by one of our service engineers for one day's duration per machine.

Please ensure that all necessary services are connected to the machine prior to the arrival of the commissioning engineer, i.e.

- 1) The machine is connected properly to the correct rating of electric supply.
For information the enclosed technical sales brochures details the current rating for a standard machine.
If you require confirmation please contact our Customer Service Department on 01926 457031.
- 2) An adequate water supply is connected. The enclosed technical sales brochure shows the correct supply and drain hose bore sizes for your machine.
- 3) If Arburg Ltd. are not arranging the initial oil fill for this machine please see the enclosed technical sales brochure for the oil quantity required.
- 4) Preferably a suitable mould is mounted within the machine so that maximum time is available for training.

Should you have any further questions please contact our machine sales department on 01926 457001.

We thank you once again for your valued order, and look forward to a successful installation of this new ARBURG machine, into your works.

In the event that you require any additional information relating to this order then please do not hesitate to contact the undersigned.
