

Carnitech Frozen meat block flaker, flaked product collected and transferred by Scansteel Giraffe twin screw feed
Or flaked product can be collected into 300 litre tote bins

Flaked product can be fed directly into the Kilia Mixer Grinder by the Scansteel Giraffe Feeder
Or if the flaked meat is in tote bins the mobile hoist can tip the tote bins into the Kilia Mixer Grinder

By way of mincing once and then loading into tote bins additional ingredients can go into the tote bins
The mobile tote bin loader can tip the product back into the Kilia 130 Mixer Grinder, then mix and mince out
