

Total Electricity Consumption : 1,5 kW
Electrical Source:
 Three-Phase 380 V 50 Hz // 1 Neutral // 1
 Grounding
Cable Section
 4x2,5 mm² (Three-Phase + 1 Neutral)
 1x2,5 mm² (Indepented Grounding Cable)
 NOTE: The resistance of grounding cable must
 be lower than 1 Ω (ohm).

Air regulator pneumatic pipe inlet diameter: Ø16
 Air Pressure : minimal 6 BAR
 Volumetric Flow rate of air : 1250 Normal liter / min

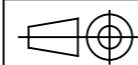

* All dimensions are in millimeters.
 * Please fill in the checkboxes indicating that you have fulfilled the conditions stated in the installation preparation forms shown on the technical drawing of the machine, and send it back to us via email with your company's stamp and the signature of your authorized personnel.
