DESCRIPTION

The Mespack H320SCD is a high-speed solution for pre-made sachets with a maximum capacity of 1000 ml, comprising a single- or dual-lane sachet feed conveyor. A pick-and-place system then transfers the pre-made sachets to the main module, where they are opened, filled and sealed at the top. Various pouch designs are available, such as flat pouches or those with a stand-up base, shaped pouches, zip-lock pouches, corner and top seals to facilitate product consumption, etc.

Includes a sauce storage tank:

Overall dimensions: 1.10 m x 1.05 m x 1.55 m.

Useful diameter: 0.50 m.

Useful height: 0.55 m.

Capacity: 100 L

MAXIMUM POUCH SIZE:

Max width x height (mm): 160 x 350.

Min width x height (mm): 90 x 120.
