

JUKI LH-3128-7 / LH-3178-7 / LH-3188-7 Industrial Twin-Needle Lockstitch Sewing Machines – Factory Matched Production Set (Lot of 6)

This lot consists of six JUKI LH-series industrial twin-needle lockstitch sewing machines, removed directly from the professional production lines of the former MASI JEANS factory in Estonia.

The JUKI LH-3100 Series is one of the world's most widely used industrial twin-needle sewing platforms, renowned for exceptional reliability, precise parallel stitching and outstanding productivity in demanding garment manufacturing environments.

All machines were operated in the same professional production facility and maintained under the same factory maintenance program, making this an excellent opportunity to acquire a factory-matched production set with identical operating principles, common spare parts inventory and simplified maintenance.

These machines are ideally suited for denim manufacturing, jeans assembly, workwear, uniforms, technical garments and other applications requiring strong, accurate parallel seams.

Bundle Contents

Machine 1

Model: JUKI LH-3188-7

Internal Reference: 3A-V256

Machine 2

Model: JUKI LH-3188-7

Year: 2004

Internal Reference: 7A-V257

Machine 3

Model: JUKI LH-3128-7

Year: 1998

Internal Reference: 37A-5470

Machine 4

Model: JUKI LH-3178-7

Year: 2008

Internal Reference: 32A-V459

Machine 5

Model: JUKI LH-3178-7

Year: 2002

Internal Reference: 28A-V249

Machine 6

Model: JUKI LH-3188-7

Internal Reference: 47A-K525

Technical Specifications

Manufacturer: JUKI Corporation

Model Series: LH-3128-7 / LH-3178-7 / LH-3188-7

Machine Type: Industrial Twin-Needle Lockstitch Sewing Machine

Country of Manufacture: Japan

Twin-Needle Lockstitch System

Vertical Hook System
Automatic Lubrication
Integrated Electronic Control System (-7 Models)
Automatic Thread Trimmer
Automatic Backtacking
Automatic Needle Positioning
Industrial Sewing Tables
Heavy-Duty Steel Stands

Production Benefits

- Factory-matched production set
- High-speed twin-needle sewing
- Excellent seam consistency
- Accurate parallel stitch formation
- Reliable performance during continuous production
- Reduced operator training requirements
- Common spare parts across the production cell

Why Purchase This Lot

- Six professional JUKI twin-needle sewing machines
- Matching machines from one factory
- Shared maintenance procedures
- Common spare parts inventory
- Cost-effective production line expansion
- Ideal for new or expanding garment factories
- Excellent investment for denim and workwear manufacturers

Applications

- Jeans production
- Denim manufacturing
- Double-row topstitching
- Waistband sewing
- Pocket attachment
- Decorative topstitching
- Workwear manufacturing
- Uniform production
- Technical garments
- Industrial apparel manufacturing

Condition

Previously used in professional garment production.

All machines remained in operation until the recent closure of the MASI JEANS factory.

Good overall industrial condition with normal cosmetic wear consistent with factory use.

Available for inspection before dismantling.

Location

Valga, Estonia

Dismantling & Transport

Buyer is responsible for dismantling, loading and transportation.

Sales Terms

Sold as-is, where-is, without warranty.

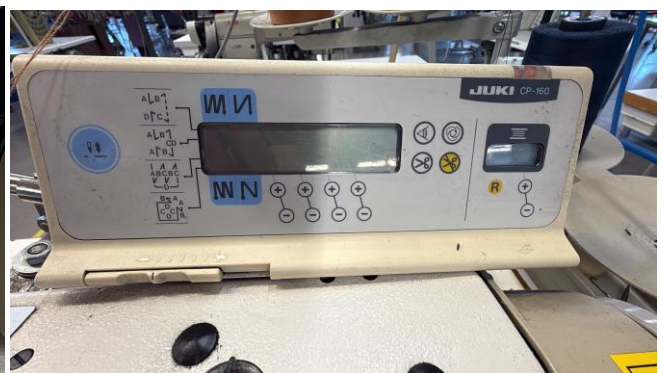

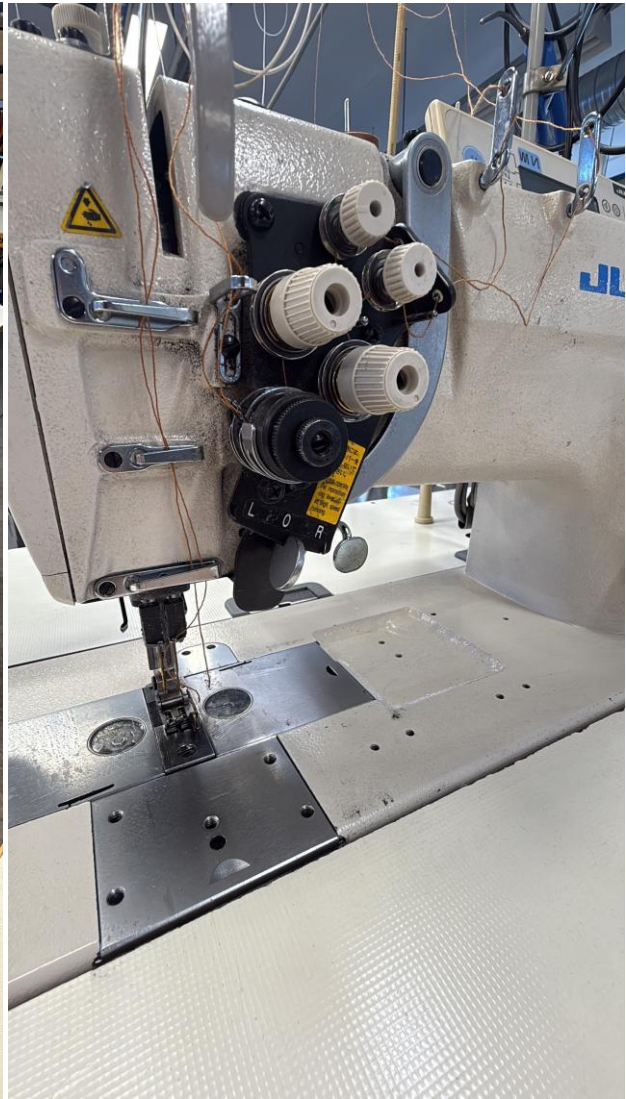

Part of the MASI JEANS factory liquidation.

The machines are offered primarily as one complete factory-matched production set. Individual sales may be considered subject to the prior sale status of the complete lot.
