# Main features

**Mechanical components are clean and well-maintained.  
Siemens HMI touch screen, free of errors.**

## **Application**

The Ander Roll machine is used for rolling and packing single and double mattresses (previously packed in bags).

## **Technical condition**

The machine is fully operational and was used in a single-shift mode. It was installed and serviced by the manufacturer's authorized technician.

## **Low production count**

The device has rolled only 30,000 mattresses, which, considering its service life, signifies a near-factory condition.

## **Main advantage**

The machine is capable of rolling even thick mattresses and high-density foams without the need for pre-pressing.

# Technical details

PARAMETER	VALUE
<b>Model</b>	Dolphin Pack ANDER ROLL (ASAND033)
