

Declaration by the Manufacturer

as defined by machinery directive 98/37/EC

The design of the machine

Product : *Shape Moulding Machine for the Processing of Thermoplastic Foam Materials*

Type : *K1318 HP5MP - 4785/08, Hanwha Europe, Czechia*

is developed, constructed and manufactured in accordance with the EU machinery directive 98/37/EEC under the sole responsibility of

Company : *KURTZ GmbH, D-97907 Hasloch / Main*

Applied harmonized standards in particular:

- ☒ DIN EN ISO 12100, Safety of machinery, basics, guiding principle
- ☒ DIN EN 60 204.1, Electrical Equipment for Industrial Machines
- ☒ DIN EN 294, Safe Working Distances
- ☒ DIN EN ISO 13850, Emergency Stop Equipment
- ☒ DIN EN 982, DIN EN 983, Safety Technical Requirements to Fluid Technical Equipment and Components - Hydraulics, Pneumatics
- ☒ EN 61000-6-2 Electromagnetic compatibility
- ☒ Interference emission, interference resistance
- ☒ DIN EN 1037, Safety of Machine Disconnection from Energy Supply and Energy Elimination
- ☒ DIN EN ISO 14121-1, Safety of machinery - Principles for risk assessment

Applied national standards, directives and specifications :

- ☒ DIN 15018, Cranes
- ☒ Druckgeräte RL 97/23 EG (Pressure Vessel Regulation) {Water Tanks and Pressure Vessels for Material}
- ☐

The complete technical documentation is available.

The corresponding operation manual is available

- ☐ in the original version
- ☐ in the language of the machine user

We hereby certify that the above machine had to be disassembled for transportation. After the installation at the production place this machine must not be put into service before it has been declared that this machine - assembled and installed for operation - corresponds to the EU Directive Machinery.
