Okamoto ACC 64 CA

Okamoto ACC 64 CA surface grinding machine with CA Surface Grinding Control control system, built in 2015, excellent condition.

CE compliant!

The machine comes from the training workshop of a renowned German mechanical engineering company.

Technical data:

Built in 2015

Table 605 x 400 mm

Table travel 800 x 440 mm

Spindle center distance (min/max) 22.5 - 522.5 mm

Max. weight 1000 kg

X-axis longitudinal from 3000 - 25000 mm/min

Y axis transverse travel feed 0-2000 mm/min

Rapid traverse 4000 mm/min

Z axis 0.0001-0.001 mm

Rapid traverse 1000 mm/min

Grinding wheel 355 x 38 x 127 mm

Speed 500–2500 rpm

Motor 5.5 kW

Weight 4950 kg

Dimensions 3550 x 2695 x 2203 mm

About the machine:

We are offering an Okamoto ACC 64 CA surface grinding machine with CA Surface Grinding control. This universal surface grinding machine is in very good original condition. It comes from a company where it was only used for training purposes. The control system is very easy to operate. A grinding path of 800 mm in the longitudinal axis and a cross path of 400 mm is assigned to the product portfolio of toolmaking, fixture construction, and small series production. This series is characterized by its extensive basic equipment and easy handling. The stable design of the spindle head and the guide principle with double V-guides in the longitudinal and transverse axes guarantee long-term precision. The intuitive operation of the controls simplifies operation and significantly increases productivity. The guides are regularly lubricated by the central lubrication system. We have tested the Okamoto mechanically and electrically. Take the opportunity to view and try out the Okamoto on site.
