DESCRIPTION

GALAN 930 cuts fresh, tumbled, frosted and cooked product from meat, fish, poultry, vegetables and offals for the pet food industry. The product can be cut in one or two dimensions, into slices, strips or cubes. All blades cut with a drawing movement. Therefore the product is cut very gently, almost like a hand cut. The cutting dimension can vary from 4 x 4 to 130 x 370 mm.

*** Production will depend on the cutting size and the product to be cut.**
