

# A420 Automatic Aluminium Up-Cut Saw

Upgrade your aluminium production to a high-speed, high-safety, OHS compliant saw.

A420 is a simple to use saw for small-profile cutting of straight or mitered aluminium parts (up to  $\pm 75^\circ$ ). High-safety operation with a two-hand press cutting and full saw guarding (including 900 mm tunnels each side) preventing access to the saw as well as uncontrolled offcuts ejection.

Pneumatic liftable guard opening and closing with a press of a button. Safety switch disabling the saw on guard up.

- $\varnothing 420$  mm TCT saw blade with 2.2 kW drive motor
- AS / NZS 4024:2014 safety standard, two hand press cut operation
- Overhead safety guards with safety tunnels 900 mm each side of the saw
- Safety guard liftable on a press of a button for unimpeded saw table access
- Safety switch disabling the saw operation on guard up
- 2x vertical and 2x horizontal clamps with adjustable clamp pressure
- Adjustable saw mitre angle to  $\pm 75^\circ$
- Moveable back fence for increased cutting capacity
- Spray-mist blade lubrication system
- Air gun and LED interior light
- $\varnothing 100$  mm attachment point for chip collection
- Optional 2.2 kW vacuum chip extractor

415V 3-phase, 15A max	2.2 kW	3000 RPM	420 / 30 mm	66 m/s
