

Brother BE-1206B-BC-PC Industrial 6-Head Embroidery Machine

Professional 6-Head Commercial Embroidery System for High-Volume Production

The Brother BE-1206B-BC-PC is a professional multi-head industrial embroidery machine designed for continuous commercial production of logos, workwear, uniforms, caps, promotional textiles, and fashion garments.

Featuring six embroidery heads with twelve needles per head, the machine enables simultaneous embroidery of multiple garments while maintaining excellent productivity and consistent stitch quality. The machine has been used in professional garment manufacturing and is offered as part of the MASI JEANS factory liquidation.
