

AUTOMATIC WATERSLOT ROUTER WS211

Automated drainage routing machine with four motors

WS211-4DE

Automatic SPS-controlled water slot milling

DESCRIPTION:

- four motors offer various possibilities in milling
- 2 selectable programs for milling (water slots) and drilling (ventilation holes)
- Pneumatic stops on the left and on the right side of motors
- hydropneumatic profile feed
- strong vertical clamping unit
- all motors are adjustable in angle
- low noise motors
- equippable with different collets (5/6/7/8mm)
- length and depth individually adjustable

TECHNICAL DATA:

Power supply:	220/400V, 50/60Hz
Power each motor:	280W
Working length:	2700mm
Routing Spindle Speed:	11000rpm
Max. Height Profile:	110mm
Stroke Routing Spindle:	80mm
Stroke Feed cylinder:	50mm
Air connection:	6-8bar
Weight:	160kg

ORDER NUMBERS:

2108541 Automatic water slot router WS211-4DE

Accessories

95112091 Roller conveyer double sided WSRBB, width
150/200mm, length 1500mm
various collets (5/6/8/10)

96001621 collet nut for collet 5-10mm
