

Endmiller AKF125M/P

Suitable for PVC- and aluminiumprofiles

With quick change cutter. Easy to use; perfect results

AKF125M

time-saving milling with manual router feed

DESCRIPTION:

- manual router feed
- pneumatic double clamping device
- profile stop to both sides 60°
- depth stop for 4 positions
- cutter replacement quick-change device
- solid machine base
- automatic safety machine stop at cover plate

Delivery includes:

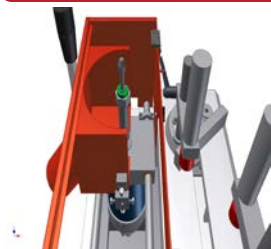

basic machine, quick change cutter replacement

TECHNICAL DATA:

Voltage:	220/400V, 50/60Hz
Power:	1,2 kW
Speed:	2800U/min
max. feed:	380mm
max. depth:	90mm
max. cutter dia:	210mm
milling spindle dia:	27mm
max. profile width:	100mm
max. height of profile:	250mm
Air connection:	6-8bar
Weight:	50kg

DETAILS:

easy change of cutter set

AKF125P

time-saving milling with hydropneumatic router feed

DESCRIPTION:

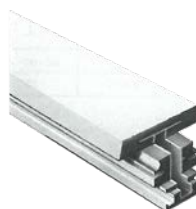

- hydropneumatic router feed
- pneumatic double clamping device
- profile stop to both sides 60°
- depth stop for 4 positions
- cutter replacement quick-change device
- solid machine base
- automatic safety machine stop at cover plate

Delivery includes:

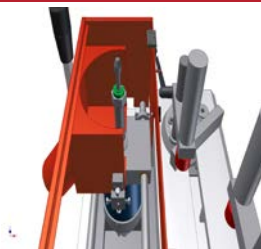

basic machine, quick change cutter replacement

TECHNICAL DATA:

Voltage:	220/400V, 50/60Hz
Power:	1,2 kW
Speed:	2800U/min
max. feed:	380mm
max. depth:	90mm
max. cutter dia:	210mm
milling spindle dia:	27mm
max. profile width:	100mm
max. height of profile:	250mm
