

SKU : 112151

Sanding, grinding, and deburring of metal parts and tools. This series provides 3 common sizes up to a grinding wheel diameter of 300 mm, and features a powerful drive.

- Built for industrial use
- Standard delivered with the base
- Rigid design for minimum vibrations

TECHNICAL SPECS

WORKING AREA

Speed	2950 1/min
-------	------------

DRIVE CAPACITY

Motor rating main drive	0.9 kW
-------------------------	--------

MEASURES AND WEIGHTS

Grinding wheel dimensions	200 mm x 32 mm x 32 mm
---------------------------	------------------------

Weight	28 kg
--------	-------

PRODUCT DETAILS

Without CE mark, only for export to countries outside the EU

- Heavy-duty design with rigid cast-iron body and maintenance-free motor
- Balanced rotor and premium bearings ensure quiet operation and optimum results
- Safety always comes first: emergency stop switch and safety observation shield
- Premium components for long tool life and endurance under rough workshop conditions

STANDARD EQUIPMENT

Base
Safety observation shield
2 universal corundum wheels

KNUTH on YouTube Information to the point

On our YouTube channel you can find videos for nearly all machines from our program. We show the machines from current deliveries and you get an impression of the handling, the processing quality and the machining performance.

**Are you interested in a machine for which you cannot find a current video?
