

DYNAJET 220 mdh

Hot- and cold-water high-pressure cleaners, 220 bar (3.191 PSI)

Installation module – 220 bar

Compact, powerful and versatile, these are the hot and cold water high-pressure cleaners of the mdh class from DYNAJET.

Mounted on a pallet for easy transport or permanently installed in a trailer or van, they offer a wide range of applications.

Highlights

For easy transport and many different applications are-as the 220mdh can be mounted on a pallet or fitted with wheels.

Alternatively the module can be installed in a van or trailer. The supply water is coming from a hose which has to be connected to the mains supply.

Standard accessories:

- 10 m high-pressure hose for hot and cold water
- High-pressure gun with spray lance
- Nozzle carrier and 15° flat-jet nozzle

DYNAJET 220 mdh

Structure

- Robust, powder-coated steel frame for optimum machine protection and a long service life
- Screws made of corrosion-free material for high durability
- Splash-resistant (IP54) electricals box for versatile and problem-free deployment
- Highest CE-certified safety standards

Drive

- Vibration-proof starter battery for effortless start-up
- Flexible vibration elements to absorb vibration between the motor, pump and frame
- Compact and robust industrial electric motor for a long service life with maximum operating times
- Belt drive for quiet operation and extended maintenance intervals
- Oil-pressure monitoring to protect against motor damage
- Operating hours counter for motor and pump for optimal recalculation
- Kubota engine approved for HVO100

Water supply

- Suction pressure control to protect the pump in the case of a weak water supply
- Always ready for operation, even in winter, due to frost protection system
- Safety valve for additional safety during operation
- Large-sized bypass hose to prevent pressure peaks and temperature increases
- Cleanable stainless-steel water filter for maximum service life of the pump
- Water-tank low-level monitor to protect the high-pressure pump from running dry
- Patented burner control without solenoid valves for safe and efficient, as well as instant-stop, operation
- Stepless pressure adjustment for optimum, application-orientated regulation of pressure and flow rate, as well as minimized noise levels, diesel consumption and wear
- Low-speed, easy-maintenance 3-plunger pump for maximum service life and low wear costs

DYNAJET 220 mdh

TECHNICAL DATA

System	Hot- and cold-water high-pressure cleaners
Type	Skid/Stationary
Pressure class	220 bar (3.191 PSI)

Pressure

Pressure class	220 bar (3.191 PSI)
Pressure variable	Yes
Minimal pressure	100 bar (1,450 PSI)

Hydraulics

Minimum flow rate	17 l/min (4.51 Us gal/min)
Maximum flow rate	26 l/min (6.89 Us gal/min)
Pump revolution speed	Max. 1760 rpm
Hydraulic power	11 kW (15 Hp)
Pump	Ceramic triplex plunger
Temperature	Max. 95 °C

Threaded connection

Input port	GEKA
Output port	M22x1.5 ET

Drive

Drive type	Diesel motor
Motor power	13 kW (18 Hp)
Motor speed	Max. 3000 rpm
Motor type	Kubota 3-cylinder diesel motor (water-cooled)
Power transmission from motor	Belts
Fuel consumption	3.9 l/h (1.03 Us gal/h) (average)
Volume fuel tank	Approx. 70 l (18.5 Us gal)

Others

Weight in kg	420.0
Dimensions (L/W/H)	120 x 80 x 112 cm
Medium	Clear water, up to 40 °C (104F), min. 1.8 bar (26 PSI) to max. 6 bar (90 PSI) supply pressure
Heating power oil burner/Dynabox	Max. 115 Kw (159 Hp)
Consumption of oil burner	7 l/h (at 60% workload)
Article number	1546811

DYNAJET 220 mdh

Scope of delivery

Standard equipment

Lifting eye, crankshaft pump, high-pressure gauge, powerful diesel engine, hand-throttle control, stainless-steel water filter, supply-pressure and water temperature-monitoring, hot-water system, safety valve

Standard accessories

10 m high-pressure hose for hot/cold-water, high-pressure cleaning gun with extension pipe (total length approx. 800 mm), nozzle carrier and 15° flat-jet nozzle, storage box

DYNAJET provides a long variety of accessories for:

- Cleaning squares, stations & car parks
- Removal of concrete for renovation
- Weed control
- Cleaning & paint stripping ships
- Industrial cleaning
- Removing chewing gum
- Removal of graffiti
- Cleaning formwork
- Cleaning scaffolding
- Cleaning construction machinery
- Cleaning roofs
- Facade renovation
- Paints tripping of metal parts
- Tank & container cleaning
- Debarking trees
- Cleaning monuments

DYNAJET weed killer
DUV 500

Protective suit

Floor cleaning system DFS 350
VAC 350 bar

Roof cleaning system DRS 500
500 bar

Dealer:

Double spray lance
M22x1,5A – 500bar

Kit: Rotating nozzle
