Compact Jet

AT-42 Compact Jet Dry Ice Cleaning Machine is a high-performance cleaning device equipped with 2 in 1 (two features in one) technology that revolutionises industrial cleaning. This machine both performs high-performance pellet dry ice cleaning and crumbles dry ice pellets like snowblower technology, offering users a precise cleaning experience. It grinds dry ice pellets between 0.5 mm and 10 mm and performs precise and deep cleaning by snowing method.

Thanks to its compact dimensions and lightweight structure, it can be easily used in narrow and hard-to-reach areas. Its portability provides practical and fast use in the field. Thanks to the pressure and flow rate control, adjustments can be made to suit different cleaning requirements. It makes it possible to clean sensitive surfaces without damaging them.

Sensitive Cleaning

Manufactured from high quality materials, the AT-42 offers long-lasting use and reliable performance even in harsh industrial environments. With its powerful motor and high pressure capacity, it effectively removes stubborn dirt and residues. It offers superior performance in industrial cleaning. It grinds dry ice pellets from 0.5 mm to 10 mm, allowing operators to adjust the ideal pellet size for various cleaning applications. This feature offers flexible and precise cleaning for different surfaces and dirt types. Equipped with safety locks, emergency stop buttons and user-friendly interface for operator safety. It provides a safe and easy operation.

2 in 1

Thanks to its compact dimensions and lightweight structure, it can be easily used in narrow and hard-to-reach areas. Its portability provides practical and fast use in the field. Thanks to the pressure and flow rate control, adjustments can be made to suit different cleaning requirements. It makes it possible to clean sensitive surfaces without damaging them. It offers flexible use with various accessories and nozzle options to adapt to different cleaning needs. This diversity provides effective solutions for all kinds of surfaces and cleaning needs.

AT-42 Compact Jet Dry Ice Cleaning Machine offers flexibility and efficiency in industrial cleaning by combining high performance and pellet grinding technology in a single device. It is a product that stands out in the sector with its advanced technology, compact design and superior cleaning capacity. It provides reliable and effective results in cleaning applications requiring high precision.

- High Performance Cleaning
- Precision Cleaning
- European Standards (CE)
- Suitable for Food and Health Industry
- Stainless Steel Body
- Compact Design
- 0.5 - 10 mm Dry Ice Grinding Range
- Easy Portable
- Ergonomic Design
- High Hopper Capacity
- Adjustable Pellet Dosage
- Wide Nozzle Options
- Special Pistol Hose
- Special Pistol with/without Light
- Working Capacity up to 10 bar
- High Manoeuvrability
- Lockable Wheel
- Emergency Stop Button

AT-42 Compact Jet

Dry Ice Cleaning Machine

Dimension (WxDxH) 560 x 760 x 980 mm

Weight 81.2 kg

Dry Ice Capacity 20 kg

Dry Ice Consumption 0 - 2 kg/min

Air Consumption 0,5 - 3 m³/min

Pressure 4 - 10 bar
