

Items	Description	
1	RUBBER CONVEYOR BELT PRODUCTION LINE	
	<p>MILLS:</p> <p>1st. Corrugate broker mills 500x1500 150 HP electric motor and reducer with electric panel</p> <p>2nd. Twin/Double refiner mills 500x900 100 HP electric motor with electric panel</p> <p>3rd. Mill 500x1550 100HP electric motor and reducer with electric panel</p> <p>4th. Mill 400x1400 40HP electrical motor and reducer with electric panel</p> <p>5th. Mill 400x1250 30HP electrical motor and reducer With electric panel</p> <p>CALENDERS:</p> <p>1st. CALENDER with 4 cylinder 400x1250 80 kw DC motor electric motor with speed control panel, Let off-wind up and all accecories</p> <p>2nd. CALENDER with 3 cylinder 500x1650 150 hp DC electic motor with speed control panel Let off-wind up and all accecories</p> <p>BANBURY MIXERS:</p> <p>1st. FARREL BRAND 80 liter banbury mixer 150HP electric engine motor with electric panel board plus steel constration platform</p> <p>2nd. Knider rubber compound mixer with 70 liter capasity 100HP electric motor and reducer</p> <p>BATCH OFF:</p> <p>Rubber compound forming machine</p> <p>VULCANIZATION PRESS:</p> <p>1st. VULCANIZATION PRESS SIZE: 1550X7650 two daylight 16 pcs.(400x500) hydraulic piston cylinder with power pack platform let off/wind up strecher system with electric panel</p>	

- 2nd. VULCANIZATION PRESS
SIZE: 1850x5500
8 pcs (400x500) hydraulic piston cylinder with power pack platform
let off/wind up
strecher system with electric panel
- 3rd. VULCANIZATION PRESS for repair and control of conveyor belts
SIZE: 500x1400 with electric panel with two piston.
- 4rd. VULCANIZATION PRESS for spliceing of conveyor belts
SIZE: 1100x1600 with two piston and hydraulic power pack.

5 UNIT CHAIN BUCKET:

and belt conveyors for rubber compound transferring systems with electric panel.

CONVEYOR BELT PREPARE AND MAKING SYSTEM:

with 5 let off stations 1 wind up and electric panel.

STEAM GENERATOR:

with water tanks and electric panels

pressure : 8 bars

capacity 1000 kg/hour

LABS EQUIPMENTS:

Computerized tensile testing device

Reometr computerized rubber compuond tetsing device

Hardness control device

Abrassion testing device

Precision sensitive scale

Rubber testing electric lab press for rubber sheet

AIR COMPRESORR:

Atlas Copco 8 Bars.

WATER COOLING SYSTEM:

Water pump and water tank
