

BTS-240 Bin Compactor

The BTS-240 Bin Compactor is ideal for material compacting in your 240 Ltr. garbage and recycling bins. Large bulky rubbish, but also cardboard and recyclable materials can be compacted easily and safe to a minimum of its size. By compacting these waste and recyclable materials you achieve a volume reduction of up to 80%, a significant saving on your disposal costs and you also create a safe and clean working environment.

Pressing force: 2 Ton
 Compaction: up to 80 % (material depending)
 Machine size: 2360 H x 780 W x 780 D mm
 Machine weight: 234 kg
 Transport height: 2360 / 1754 mm (on request)
 Cycle times: 20 seconds
 Motor: 1.5 kW 13 Amp
 Power supply: 220 - 240 V (1 phase)
 Noise level: 68 dB

- User-friendly lever control
- Optimum utilization of garbage bins
- Reduces the number of waste bins
- No more climbing into bins
- Reduces frequency of waste collection
- A quality product "Made in Europe"

Suitable for compacting

- General waste
- Recyclable materials
- Paper and cardboard
- Green waste
- Light valuable materials

Optional extras

- Machine colour RAL
- Machine galvanized
- AUTO compaction cycles
- Bag press insert
