

MACPI 321.715 Industrial Garment Pressing / Finishing Machine (2019)

Professional Steam-Pneumatic Finishing Machine for Jeans, Trousers & Workwear

The MACPI 321.715 is a professional industrial trouser finishing machine manufactured by MACPI S.p.A., Italy in 2019.

Designed for high-volume garment manufacturing, the machine combines steam, compressed air, and pneumatic tensioning to produce consistent, high-quality finishing results for jeans, trousers, chinos, and workwear garments.

The unit has been used in professional garment production and remained fully operational until factory shutdown. The machine was tested and video recorded in operation on 05.03.2026.

Technical Specifications

- Manufacturer: MACPI S.p.A.
- Model: 321.715
- Machine Type: Industrial Trouser Finisher
- Year: 2019
- Serial Number: 138716
- Country of Manufacture: Italy
- Weight: Approximately 260 kg
- Power Supply: 400 V, 3-Phase, 50 Hz
- Heating System: External Steam Supply
- Pneumatic System: External Compressed Air Required
- Drive System: Panasonic VF200 Inverter
- Control System: Electronic Digital Control Interface

Key Features

- Professional steam-pneumatic finishing system
- Designed for jeans, trousers, chinos, and workwear
- Pneumatic garment tensioning system
- Adjustable steam and air cycle parameters
- Multi-zone finishing process
- Digital electronic controls
- Panasonic inverter drive
- Foot pedal operation
- Heavy-duty industrial steel construction
- Designed for continuous production environments

Includes

- MACPI 321.715 finishing machine
- Electronic control panel
- Panasonic VF200 inverter
- Pneumatic clamping system
- Steam connection interfaces
- Industrial frame
- Foot pedal controls
- Integrated safety guards

Applications

- Jeans finishing
- Trouser finishing
- Chino production
- Workwear finishing
- Uniform production
- Garment manufacturing
- Textile finishing departments
- Industrial apparel production

Condition

- Fully functional
- Previously used in professional garment production
- Tested and video recorded in operation on 05.03.2026
- Serviced on 27.02.2026
- Good industrial condition
- Normal cosmetic wear consistent with factory use
- Available for inspection before dismantling

Location

Valga, Estonia

Dismantling & Transport

Buyer is responsible for disconnecting steam, compressed air, and electrical connections, dismantling, loading, transportation, and all related costs.

Professional dismantling is recommended due to the machine's industrial utility connections.

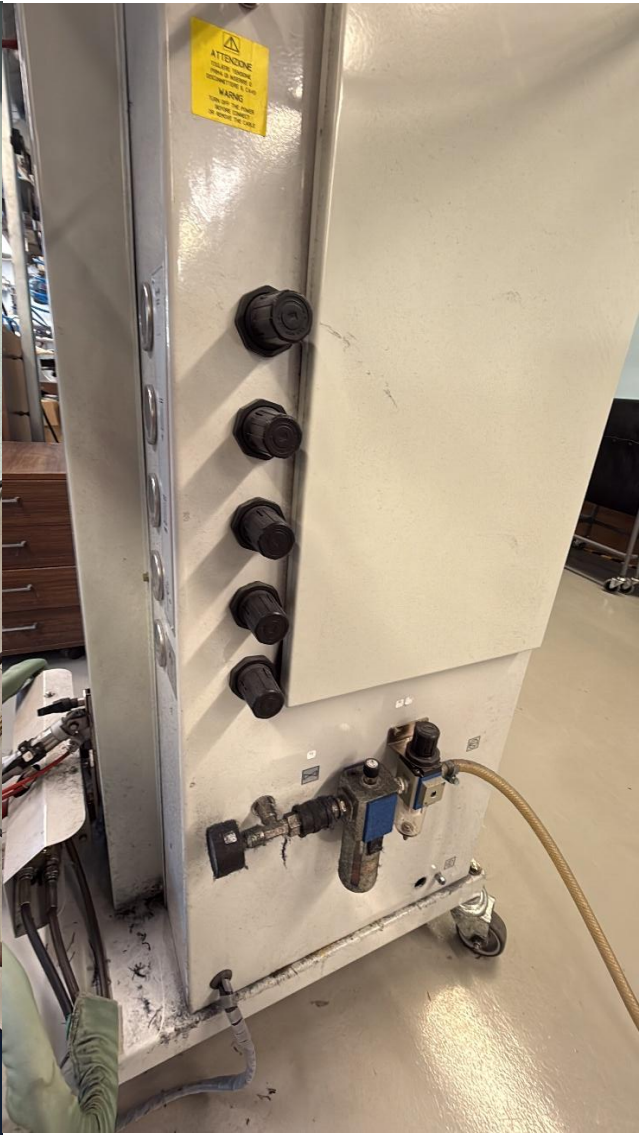

Sales Terms

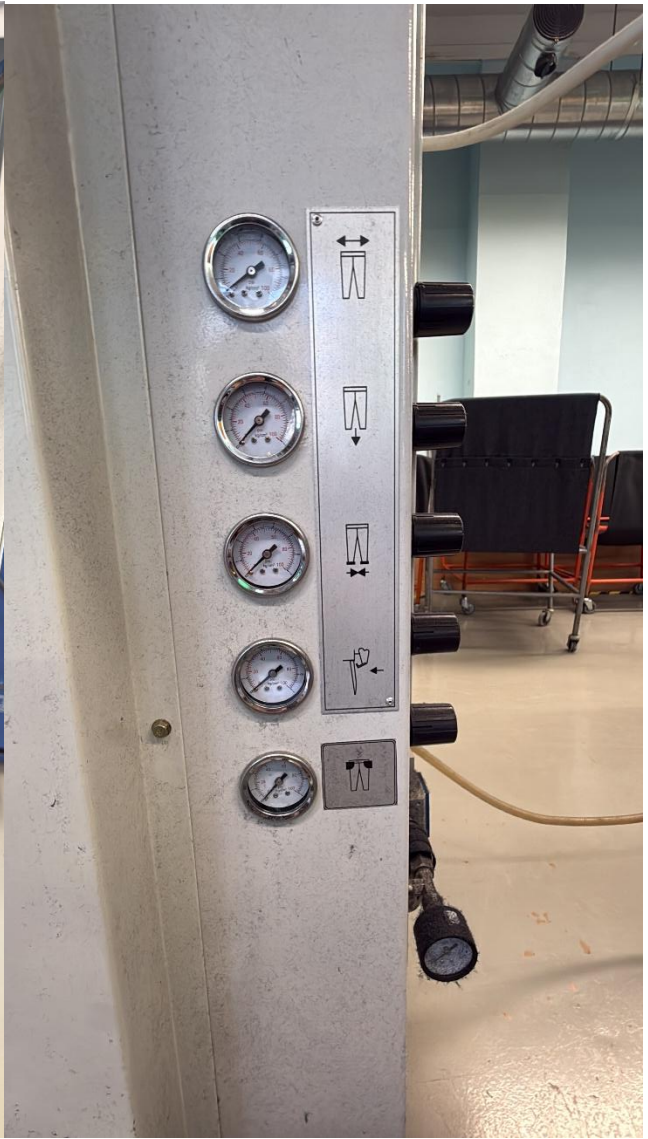

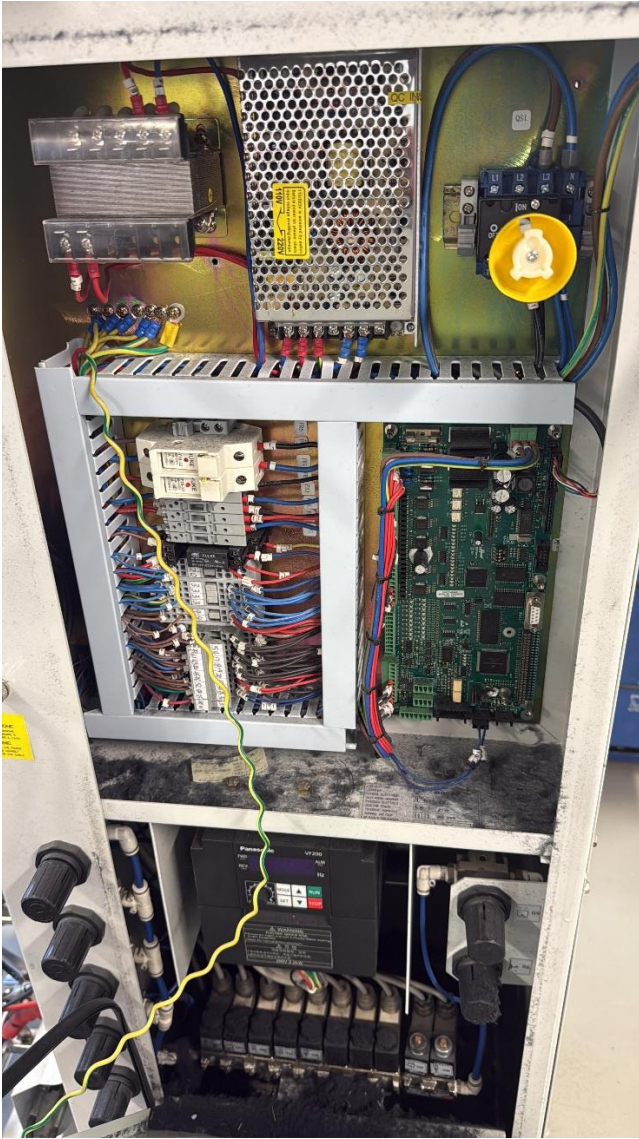

Sold as-is, where-is, without warranty.

Part of the MASI JEANS factory liquidation.
