

Lot of 2 – TUPESA SC 125 V Industrial Steam Tumble Dryers (2004)

Two High-Capacity Steam-Heated Tilting Drum Dryers – One Operational, One for Inspection or Spare Parts

An excellent opportunity to acquire two heavy-duty TUPESA SC 125 V industrial steam tumble dryers manufactured by TUPESA Maquinaria Textil, Spain.

These industrial dryers are designed for continuous, high-capacity textile and garment drying, making them ideal for denim manufacturing, garment finishing, industrial laundries, and textile processing plants.

Both units were previously installed in the MASI Jeans factory and formed part of a professional industrial laundry and finishing line.

The machines are sold together as one lot.

Unit K550 is operational.

Unit K551 requires radiator replacement

Technical Specifications

- Manufacturer: TUPESA Maquinaria Textil
- Model: SC 125 V
- Machine Type: Industrial Steam-Heated Tilting Drum Tumble Dryer
- Quantity: 2 Machines
- Year of Manufacture: 2004
- Manufacturing Date: 17.12.2004
- Country of Manufacture: Spain
- Power Supply: 380 V, 3-Phase, 50 Hz
- Heating System: External Steam Supply
- Variable Speed Drive: Danfoss VLT 2800 Inverter
- Drum Type: Hydraulic Tilting Drum

Machine Details

Unit K550

- Internal Reference: K550
- Serial Number: 3881
- Operational

Unit K551

- Internal Reference: K551
- Serial Number: 3690
- Requires inspection / suitable for spare parts or refurbishment

Key Features

- Two industrial steam-heated tumble dryers
- Large-capacity tilting drum design
- Hydraulic drum tilting for ergonomic loading and unloading

- Steam-heated drying system
- Danfoss variable-speed inverter drive
- Industrial electrical control panel
- Heavy-duty construction for continuous production
- Designed for large-scale laundry and garment processing

Includes

- 2 × TUPESA SC 125 V tumble dryers
- Danfoss inverter drives
- Electrical control cabinets
- Main drive motors
- Steam connection valves
- Exhaust fan assemblies
- Industrial support frames

Applications

- Industrial laundry operations
- Garment manufacturing
- Denim production
- Textile processing
- Garment finishing
- Commercial drying facilities
- Heavy textile processing

Condition

- Sold as one lot consisting of two machines
- One machine fully operational
- Second machine requires approx.. 1000 euro radiator replacement.
- Previously used in professional industrial production
- Both machines are externally complete
- Good overall industrial condition
- Normal cosmetic wear consistent with factory use
- Available for inspection before dismantling

Location

Valga, Estonia

Dismantling & Transport

Buyer is responsible for dismantling, loading, transportation, and all related costs.

Professional dismantling and lifting equipment are recommended due to the size and weight of the machines.

Sales Terms

Sold as-is, where-is, without warranty.

Part of the MASI JEANS factory liquidation.

The machines are available as this two-machine package or together with the complete industrial laundry and finishing line.
