DESCRIPTION

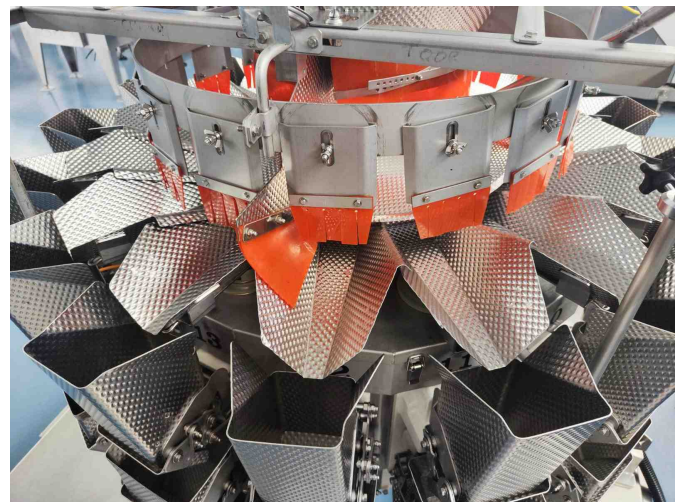

The Yamato Dataweigh Model ADW-416MV multi-head weigher is a high-precision combined weigher designed for the fast and accurate weighing of bulk products.

Technical Specifications:

- Number of heads: 16 weighing heads utilising high-performance strain gauge load cell technology. Weighing head constructed from non-stick steel.
- Dosing range: between 8 g and 1,000 g (for single doses), making it ideal for small and medium-sized products.
- Speed: Can reach up to 190 weighings per minute (depending on the product and configuration).
- Weigher diameter: 1.20 m
- Product versatility: Suitable for a wide range of applications, from snacks and confectionery to frozen foods, cereals, pasta and fresh produce.

Includes 2 vibrators:

- Vibrator 1: 1.70 m x 0.37 m x 0.70 m. Effective width: 30 cm.
- Vibrator 2: 2.05 m x 0.37 m x 0.50 m. Effective width: 30 cm.
