

MULTICUT 480 PRO-LINE

Building on our standard 480 Eco-line model, Pro-line boasts more features to give you top-notch performance in ultimate comfort. When you want the highest specification, choose a Pro-line model.

Hydragas suspension, a walking centre axle, and wide wheels reduce ground pressure - even in tough conditions. This ensures a comfortable ride for you and your tractor.

Meanwhile, our six-blade Starcut system comes as standard. Cut your stubble faster (with lower fuel costs) and accelerate mulch breakdown. All with a versatile 4.6 metre cutting width.

- Multicut boosted with exceptional spec.
- Hydragas suspension improves comfort.
- Six-blade Starcut system mulches faster.
