

MAYER & CIE OVJA 1.6 ET 3WT Circular knitting machine

No 5237 2/2002

MAYER OVJA 1.6 ET 3WT is a premium double jersey transfer jacquard knitting machine, known for its exceptional capability in producing intricate designs and multi-colour striped fabrics. With a 30-inch diameter and an 18-gauge specification, this machine ensures the creation of fine, high-quality textiles suitable for various applications.

The machine is equipped with 48 feeders, including 32 knitting (K) and 16 transfer (T) feeders, providing a consistent and smooth yarn feed that enhances production efficiency and fabric quality. The LGL compact design allows for optimal space management, making it an ideal choice for factories with limited floor space. extra 48 memminger D 72277 feeders for lycra included in price.

Manufactured in 2002, the OVJA 1.6 ET incorporates robust construction and reliable performance, making it a valuable asset for textile manufacturers seeking to produce superior fabrics with complex jacquard patterns and vibrant colours.
