CUOMO VACUUM LIQUID FILLER WITH SEAMER

SPACE TOTAL DIMENSIONS							
LENGTH	4,600 m	WIDTH	2,050 m	HEIGHT	2,200 m	WEIGHT	0,00 Kg

DESCRIPTION

Filling groups under vacuum and closed to fill government liquids, oils, syrups or liquid sauces in containers pre-filled with solids such as tuna, mushrooms, vegetables or fruits.
Filler and closing machine are mechanically synchronized and have a single electric control panel, thus ensuring a perfect transfer of containers avoiding product spillage.

Vacuum pump measures:
Length: 0.60 m
Width: 1.15 m
Height: 2.40 m
Measurements of the electrical panel:
Length: 1.10m
Width: 0.40 m
Height: 1.47 m
***Production will depend on the format and product to be closed.**
