Machine descriptions

Used but like new

1) Bottling, capping, labelling and printing line for liquids, brand 7fluss/Tecnofluss

Purchased in 2020, perfectly operational.

The line is 4.0, as it offers remote control for monitoring data and receiving support.

Suitable for food use, for disinfectants, etc.; it is made of AISI 316 stainless steel and the dispensing area is in titanium, making it suitable also for bottling strongly oxidising substances.

It has 4 filling stations, a capping station for both caps and triggers, and a labeller with printer.

Equipped with loading/unloading and bottle accumulation tables;

It handles formats from 50 ml to 2 litres.

Supplied with manuals and training videos for programming the various formats and for use.

2) Robopac Robotape 50 CF case taping machine

Manual available in paper and electronic format.

All the machinery is well maintained, perfectly operational, like new.

3) ABAC B5900 LN 5.5 DRY compressor

Manual available in paper format.

They are located at our premises in Guidizzolo (MN).
