### Description

---

#### Used Complete Line for PET and Glass 2007

##### Rinsing Machine:

- Manufacturer: Dipran
- Model: Marea 12P
- Year: 2007

The used complete line for PET and glass bottles includes a high-quality rinsing machine. Manufactured by Dipran in 2007, the model is Marea 12P. This machine ensures thorough and efficient rinsing of the bottles, preparing them for the filling process.

##### Filling Monoblock:

- Manufacturer: NELDEN
- Model: Giove FC VA 20-1 Big
- Year: 2010

The line also features a reliable filling monoblock manufactured by NELDEN. The model is Giove FC VA 20-1 Big, and it was produced in 2010. Using a gravity filling method, this monoblock precisely fills the bottles with the desired product, ensuring accuracy and consistency.

##### Labeling Machine:

- Manufacturer: Newtec

- Model: Fix S2 E2
- Year: 2007

Included in the line is a Newtec labeling machine, model Fix S2 E2, manufactured in 2007. With its mechanical cam, this machine efficiently applies labels to the bottles, providing clear and professional branding for the products.

**Case Erector:**

- Manufacturer: SistAI
- Model: HM 2000
- Year: 1995

To complete the packaging process, a case erector by SistAI is included in the line. The HM 2000 model, manufactured in 1995, is a reliable machine that swiftly erects cases for efficient packaging and transportation of the bottles.

**Additional Details:**

- The line's production speed with 5-liter containers is 1800 to 2000 pieces per hour.
- The rinsing machine utilizes microfiltered water for treatment.
- The capper of the filling monoblock is equipped with interchangeable heads and channels based on production requirements.
- Cap sizes for screw caps include aluminum caps measuring 35 x 18 and plastic caps measuring 48 x 17.

Used Complete Line for PET and Glass 2007, this complete line is in excellent condition and ready immediately for sale
