

**Paper roll cutting machine, max. dimensions of roll holder 2195 mm wide and 465 mm high, number of roll knives 19 pieces**

It is a machine for cutting paper on rolls into strips.

**Technical data paper roll cutting machine. This machine can only be used for small residual rolls up to a maximum diameter of 400 mm in order to automatically unwind these residual rolls and cut the paper into strips so that it can be better pressed into bales.**

Manufacturer unknown

Type unknown

Year of manufacture unknown

Dimensions feed table for rolls:

Width inside of rolls 2.195 mm

Height inside of castors 465 mm

Transport dimensions Feed table over all:

2,650 x 1,300 x 2,150 mm (W x H x D)

Dimensions roller cutter:

Width cutting shaft inside 2.250 mm

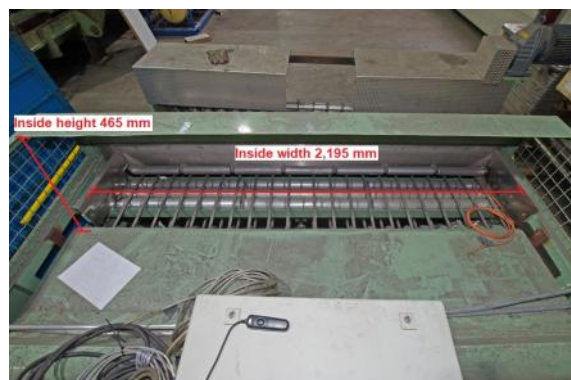

Transport dimensions of the roll slitter over all:

3,050 x 1,550 x 550 mm (W x H x D)

Remarks:

There are no further data or documents available. A viewing is possible by appointment. We assume no liability for the technical data and possible errors.
