ROLL FORMING MACHINES

DACHPOLL

Od wielu lat firma **DACHPOLL** profiluje blachy i buduje maszyny do profilowania blach.

Szczególną zaletą maszyn produkowanych obecnie przez DACHPOLL jest wysoko rozwinięta elektronika i sterowanie która bezwzględnie wyprzedza konkurencję w światowej skali. Profilarki posiadają innowacyjny, graficzny - prosty w obsłudze system sterowania w wielu językach. Sterowanie oparte jest na markach uznanych producentów takich jak: MITSUBISHI (JAPAN), PANASONIC (JAPAN), SIEMENS (GERMANY), EATON (GERMANY), WAGO (GERMANY), HYDAC (GERMANY).

DACHPOLL produkuje również maszyny na zamówienie wg potrzeb klienta.

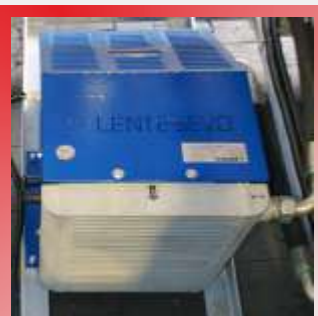

Фирма **DACHPOLL** уже много лет занимается профилированием металла и производством линий для профилирования металла.

Значительным преимуществом линий, производимых в настоящее время фирмой DACHPOLL является высоко развитая электроника и управление, которая безусловно превышает конкуренцию в мировом масштабе.

Профилирующий стан обладает новаторской, графической - простой в обслуживании системой управления в нескольких языках.

Управление на основе известных производителей таких как: MITSUBISHI (ЯПОНИЯ), PANASONIC (ЯПОНИЯ), SIEMENS (ГЕРМАНИЯ), EATON (ГЕРМАНИЯ), WAGO (ГЕРМАНИЯ), HYDAC (ГЕРМАНИЯ).

DACHPOLL производит также линии на заказ согласно потребностям клиентов.

It has been many years since **DACHPOLL** company started to deal with metal-sheet profiling. Having had much experience in this field, Dachpoll company started to design and manufacture roll-forming machines. A distinctive feature of our product is, undoubtedly both, highly advanced electronics as well as the control of our machines. Our roll-forming machines have the innovative graphic in many languages and easy to operate control system. The system is thoroughly based on the world-wide known and respected brands' producers, such as: MITSUBISHI (JAPAN), PANASONIC (JAPAN), SIEMENS (GERMANY), EATON (GERMANY), WAGO (GERMANY) and HYDAC (GERMANY) as well.

Trying to meet the individual needs of our customers, DACHPOLL also completes lots of customized orders.

LINIE DO PROFILOWANIA BLACHODACHÓWKI

LINIE TECHNOLOGICZNE DO PROFILOWANIA BLACHODACHÓWKI

DACHPOLL produkuje maszyny do produkcji wielu profili dachówkowych.

Profilarka do produkcji blachodachówki jest flagowym produktem firmy DACHPOLL oraz wyróżniającą się linią technologiczną w branży budowy maszyn.

Zautomatyzowana linia technologiczna do profilowania blachodachówki zawiera: Rozwijak, Wprowadzenie, Profilarkę, Prasę, Gilotynę, Odbierak, Transporter.

LINIA OSIĄGA WYDAJNOŚĆ do 11 mb/min.

ТЕХНОЛОГИЧЕСКИЕ ЛИНИИ ДЛЯ ПРОФИЛИРОВАНИЯ МЕТАЛЛОЧЕРЕПИЦЫ

DACHPOLL производит линии для изготовления многих профилей черепицы. Профилирующий стан для производства металлочерепицы является основным продуктом фирмы DACHPOLL, а также отличающейся технологической линией в отрасли машиностроения. Автоматизированная технологическая линия для профилирования металлочерепицы состоит из: разматывателя, направляющего стола, профилирующего стана, прессы, гильотины, приемного стола и транспортера готового изделия.

ПРОИЗВОДИТЕЛЬНОСТЬ ЛИНИИ ДОСТИГАЕТ до 11 мп/мин.

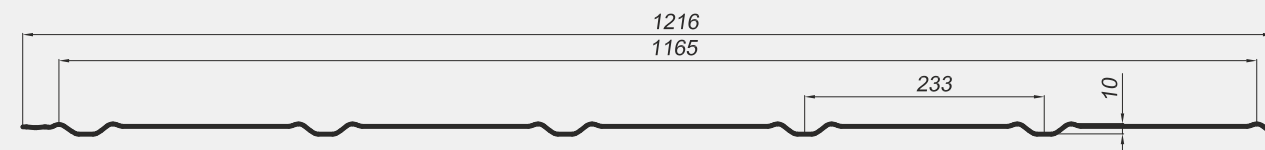

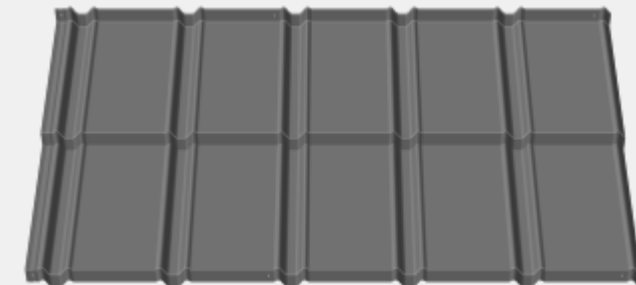

ROOF-TILE PROFILING TECHNOLOGICAL LINES

DACHPOLL company deals with productions of many roof-tile profiling machines. With its highly advanced technological line, our roof-tile roll forming machines, remain one of our main and distinctive products. The fully automated technological line used for roof-tile profiling includes: a de-coiler, sheet entry, roll former, press, guillotine, run-out table and a sheet transporter.

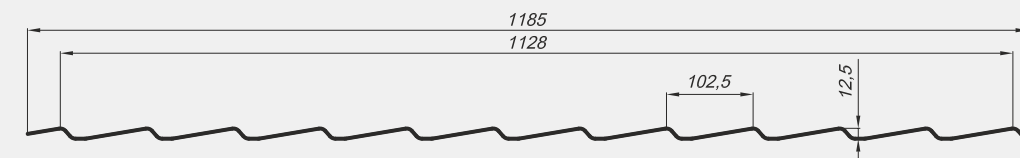

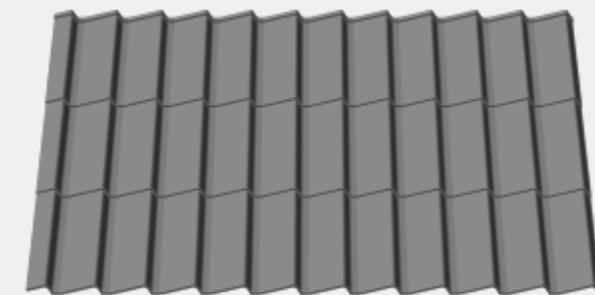

THE LINE REACHES EFFICIENCY UP TO 11 RUNNING METERS PER MINUTE.

Мощ / Power / Мощность: 20 - 27 kW

Grubość blachy / Sheet thickness / Толщина профилированной стали: 0,44 - 0,55 mm

Wydajność / Efficiency / Скорость прессовки: 7 - 10 m/min

Wysokość przetłoczenia / Standard stampings / Стандартная высота модуля:

15/20/25/30/35 mm i inne

Gatunek stali / Type of sheet / Вид стали: DX51; S250GD, S280GD, S320GD, 3105 H45

Produkujemy maszyny do blachodachówek modułowych, które nie są ograniczone długościami krytycznymi.

LINIE DO PROFILOWANIA TRAPEZU

LINIE TECHNOLOGICZNE DO PROFILOWANIA BLACH TRAPEZOWYCH

DACHPOLL produkuje maszyny do produkcji profili trapezowych. Profile są wykonywane między innymi wg norm europejskich (EN):

Zautomatyzowana linia technologiczna do profilowania trapezu zawiera: Rozwijak, Wprowadzenie, Profilarkę, Gilotynę, Odbierak, Transporter.

LINIA OSIĄGA WYDAJNOŚĆ do 30 mb/min.

Gatunek stali: DX51; S220GD, S250GD, 3105 H45.

ТЕХНОЛОГИЧЕСКИЕ ЛИНИИ ДЛЯ ПРОФИЛИРОВАНИЯ ПРОФНАСТИЛА

DACHPOLL производит линии для изготовления профилей профнастила. Профили производимые согласно российским стандартам ГОСТ.

Автоматизированная технологическая линия для профилирования профнастила состоит из: разматывателя, направляющего стола, профилирующего стана, гильотины, приемного стола и транспортера готового изделия.

ПРОИЗВОДИТЕЛЬНОСТЬ ЛИНИИ ДОСТИГАЕТ до 30 мп/мин.

Вид стали: DX51; S220GD, S250GD, 3105 H45.

TRAPEZOIDAL ROOF SHEET ROLL FORMING TECHNOLOGICAL LINES

Trapezoidal roll forming machines are also ones of our best-selling products on offer. All the profiles comply with EC standards.

The fully automated technological line used for trapezoidal roll forming comprises: a de-coiler, sheet entry, roll former, guillotine, run-out table and a sheet transporter.

EFFICIENCY OF UP TO 30 RUNNING METERS PER MINUTE.

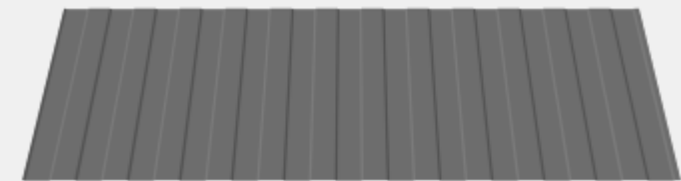

Type of sheet: DX51; S220GD, S250GD, 3105 H45.

LINIE DO PROFILOWANIA GAŚIORÓW

LINIE TECHNOLOGICZNE DO PROFILOWANIA GAŚIORÓW

DACHPOLL produkuje maszyny do produkcji gąsiorów w cyklu automatycznym (szerokość taśmy 312mm i 416mm).

ТЕХНОЛОГИЧЕСКИЕ ЛИНИИ ДЛЯ ПРОИЗВОДСТВА КРОВЕЛЬНОГО КОНЬКА

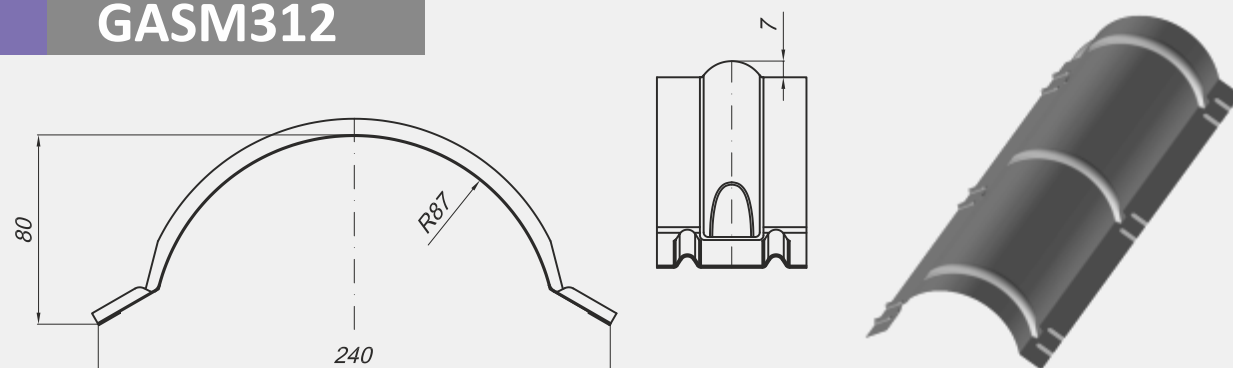

DACHPOLL производит линии для профилирования конька в автоматическом режиме. (ширина металла 312 мм и 416 мм)

ROOF RIDGE CAP PROFILING TECHNOLOGICAL LINES

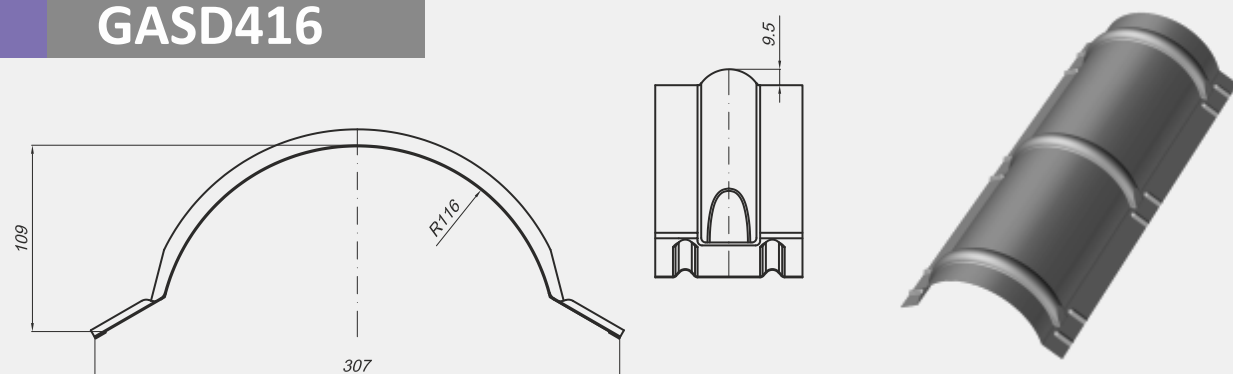

DACHPOLL company both designs and produces highly advanced roof ridge cap roll forming machines used in an automatic cycle (312mm and 416mm).

LINIE DO CIECIA BLACH NA DŁUGOŚĆ

LINIE TECHNOLOGICZNE DO ROZKROJU BLACH

DACHPOLL produkuje maszyny do rozkroju wzdłużnego i poprzecznego blach do 2mm.

LINIA OSIĄGA WYDAJNOŚĆ do 30 mb/min.

ТЕХНОЛОГИЧЕСКИЕ ЛИНИИ ДЛЯ ПРОДОЛЬНОГО И ПОПЕРЕЧНОГО РАСКРОЯ МЕТАЛЛА

DACHPOLL производит линии для продольного и поперечного раскроя металла до 2 мм.

ПРОИЗВОДИТЕЛЬНОСТЬ ЛИНИИ ДОСТИГАЕТ до 30 мп/мин.

TECHNOLOGICAL LINES FOR SHEET-METAL CUTTING

Apart from all the above mentioned products, DACHPOLL company produces machines for crosswise and longitudinal up to 2 mm metal sheet cutting.

EFFICIENCY OF UP TO 30 RUNNING METERS PER MINUTE.

ROZWIJAKI DO 12 TON

DACHPOLL produkuje rozwijaki mechaniczne i hydrauliczne o nośności do 12 ton.

РАЗМАТЫВАТЕЛИ ДО 12 ТОНН

DACHPOLL производит механические и гидравлические разматыватели грузоподъемностью до 12 тонн.

DE-COILERS UP TO 12 TONS

DACHPOLL company also specializes in production of both, non-motorized as well as hydraulic de-coilers with its up to 12 tons capacity.
