AUTOMATIC, COATING PRODUCTION LINE **DIAMAC**

2 x STATIONARY DISOLVER 50HP, 1500 liters: DIAMAC (1)

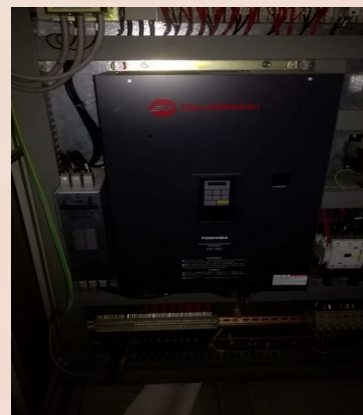

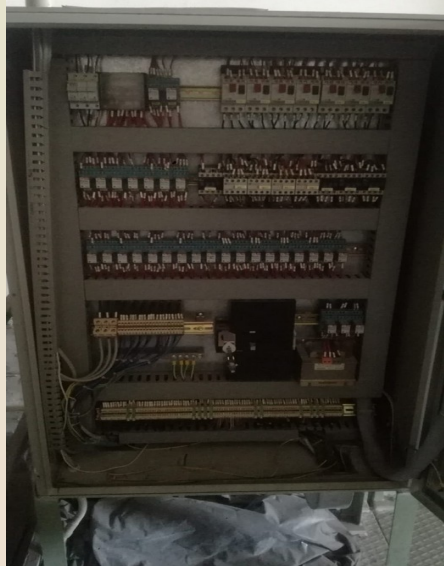

- INOX steel tank - 2 x 1500 liters (one mixing - about 4 tons of finished product)
- inverter
- automatic water supply (filling)
- automatic feeding of 4 types of resins (filling)
- automatic transport of liquid products or powders
- power of the main mixing geared motor: 50hp - 37Kw
- rotation: 0-1500 rpm
- diameter of the dispersing disk: 450mm and more
- possibility to install 2 dispersing discs on one mixing shaft
- voltage: 380 / 400V
- frequency: 50Hz
- stirrer lifting height: 700mm
- complete set of documents and CE cert
- year of production: 1999

2 x STATIONARY DISOLVER 50HP, 1500 liters: DIAMAC (2)

2 x STATIONARY DISOLVER 50HP, 1500 liters: DIAMAC (3)

INDUSTRIAL TYNTOMETER: DIAMAC (1)

INSTALLATION COMPLETELY NEW, NEVER USED.

- steel, modular structure
- 16 tanks made of stainless steel INOX
- 16 slow-speed mixers (geared motors)
- a set of documents + CE safety certificate
- year of production: 1999
- price:

This installation - (tyntometer) is used for the production of colored paints in industrial quantities or special multi-component paints (16 fillers / products), possibly for the production of other liquid or liquid multi-component products.

The installation is currently manual, but it is predisposed to semi-automatic production (weight / volume dosers) or automatic production (connection of an OPTIONAL PLC + weight / volume dosers / flow counters). In this way, color formulas or special compositions can be generated by means of a PC.

INDUSTRIAL TYNTOMETER: DIAMAC (2)

INSTALLATION COMPLETELY NEW, NEVER USED.

STATIONARY MIXER DIAMAC 30HP INVERTER

- stainless steel INOX tank
- inverter
- power: 30hp / 22Kw
- number of revolutions: 0-1500
- electronic weighing sensors
- volume 3000 liters
- a pump for pumping the finished product
- complete set of documents and CE certificate
- year of production: 1999
- price:

STATIONARY MIXER low-speed DIAMAC 10HP

- stainless steel INOX tank
- power: 10hp
- volume 6000 liters
- a pump for pumping the finished product
- complete set of documents and CE certificate
- year of production: 1999
- price:

COLUMN DISOLVER DIAMAC 15HP INVERTER (1)

- 700 liter stainless steel INOX tank
- hydraulically lifted column
- inverter
- power of the mixing geared motor: 15KM - 11Kw
- speed: 0-2000 rpm / min
- diameter of the dispersing disk: 240mm
- voltage: 380 / 400V
- frequency: 50Hz
- maximum height: 3500mm
- length: 1600mm
- base width: 600mm
- weight: 750 kg
- complete set of documents and CE certificate

LABORATORY DISOLVER DIAMAC 2HP INVERTER

- manually lifted counter-weight column
- inverter
- power: 2KM - 1.5Kw
- revolutions: 0-3000 rpm
- diameter of the dispersing disk: 60 / 140mm
- voltage: 220 / 230V
- frequency: 50Hz
- maximum height: 1020mm
- length: 560mm
- base width: 310mm
- weight: 80 kg
- complete set of documents and CE certificate
- price:

COMPACT WEIGHT FILLER: IMMEA mod. DPC/5/30 (1)

- semi-automatic
- completely pneumatic
- dosage: 1-30 kg
- tolerance: +/- 5 grams
- height: 1400mm
- length: 1000mm
- width: 650mm
- weight: 200 kg
- air pressure: 6 atm
- complete set of documents and CE certificate
- price:

COLUMN DISOLVER DIAMAC 15HP INVERTER (2)

COMPACT WEIGHT FILLER: IMMEA mod. DPC/5/30 (2)

immea
DOSATRICI S.R.L.
COCCAGLIO (BS) ITALIA

DPC/5/30

DOSATRICI PONDERALI COMPATTE - COMPACT WEIGHT FILLERS

1 m³ di tecnologia per dosare con:

- Elevate produzioni
- Precisione
- Semplicità operativa
- Massima sicurezza

1 sq. mt. of technology to fill with:

- High production capacity
- Accuracy
- Easy operation
- Safety, pneumatic powered

DUST FILTER, PNEUMATIC: WAM

- stainless steel INOX
- height:
- length:
- width:
- weight:
- complete set of documents and CE c
- still in a protective foil!
- price:

VOLUMETRIC PUMPS FOR TRANSPORT / DOSING OF RESIN: PEDROLLO

- quantity: 4 pieces
- complete set of documents and CE certificate
- price:

DOCUMENTATION, OPERATING INSTRUCTIONS, "CE" SAFETY CERTIFICATES, etc.

- a set of documents and certificates "CE"
