

## Cartoner C 130

Developed for GMP-compliant applications anywhere in the world.

C 130 is Uhlmann's smallest intermittent cartoner of GMP-compliant pharmaceutical design. This machine packages every shape and type of product with uniform, consistent perfection anywhere in the world. Intelligent components and features such as the carton feeder and accurate product insertion make sure of that. The C 130 combines established technology with state-of-the-art innovations: it embodies

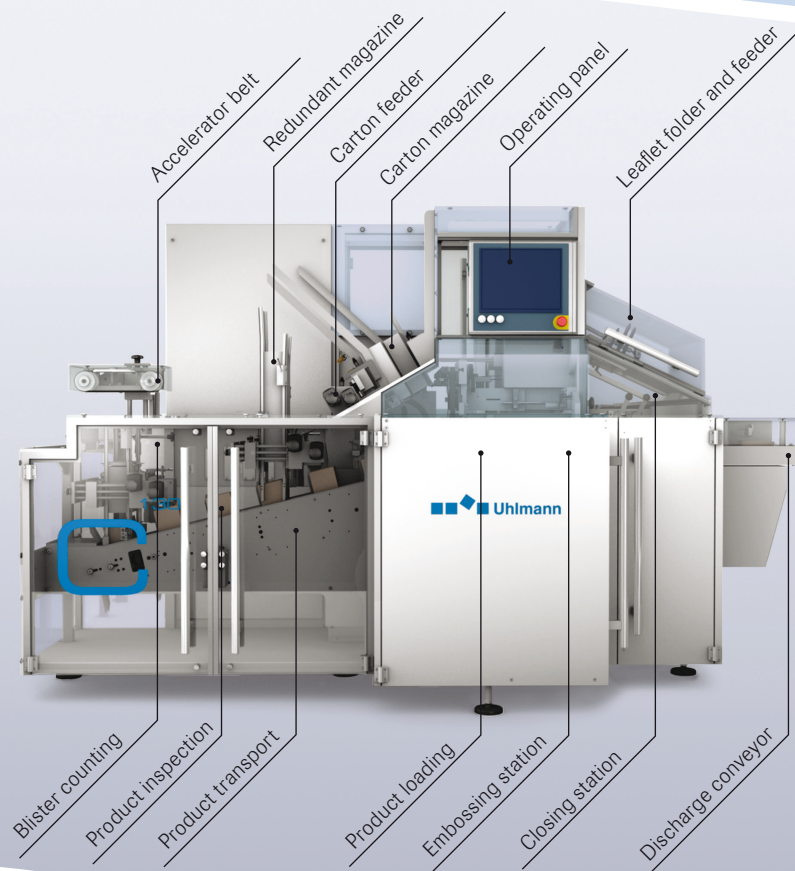

engineering proficiency gained from two decades of development experience. The Cartoner C 130 is predestined for the packaging of blisters. It is ideal for small and medium sized batches. Tailored accessories offering corresponding perfection are available for every application: from the appropriate feeding system through to diverse inline inspection and monitoring systems.

Impressive in the smallest category

## Cartoner C 130 at a glance

<b>Output</b> [1/min]	max. 150 cartons	<b>Operating mode</b>	intermittent
<b>Pitch</b>	5"	<b>Types of closure</b>	tuck-in and hot-melt
<b>Carton size</b>		<b>Space required</b>	
[A x B x H]	max. 100 x 85 x 150 mm	Machine width	approx. 1,500 mm
No. of blisters	max. 10	Machine height	approx. 1,930 mm
B blister stack height	max. 80 mm	Machine length	approx. 3,100 mm
		Package discharge	850 mm

## Cartoner C 130

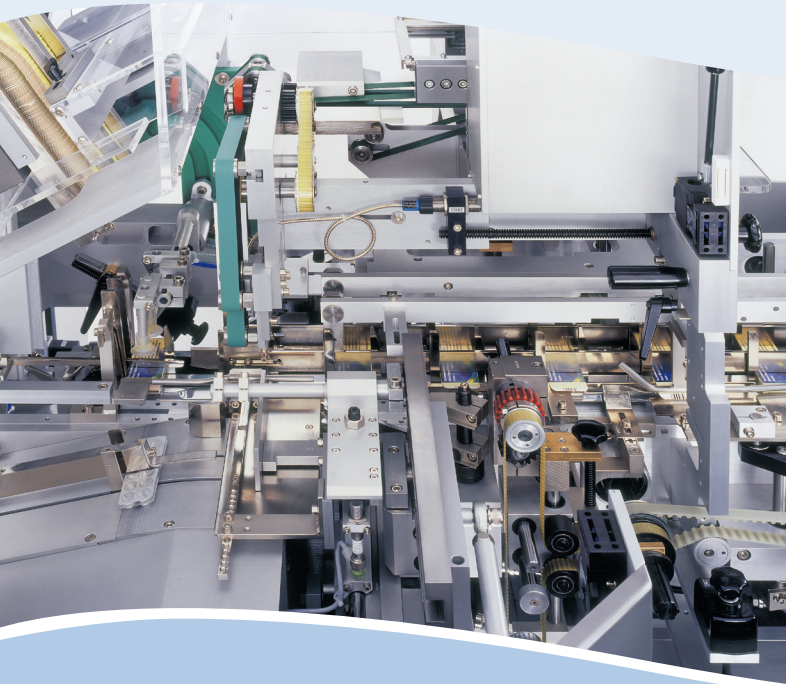

### Components and features of the Cartoner C 130

- Handling of blisters with an output of up to 150 cartons per minute
- Continuous product chain for blisters
- Trouble-free production even in the case of critical carton qualities

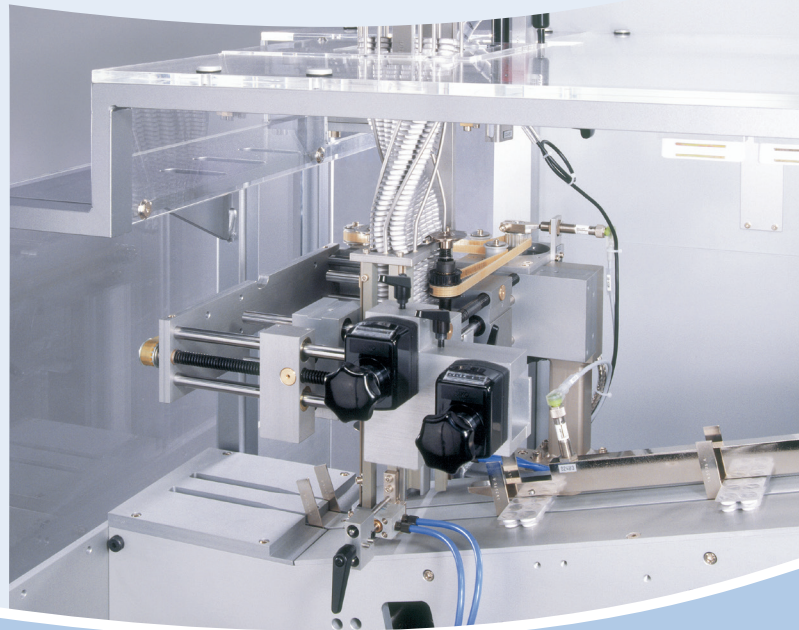

### Additional advantages of the Cartoner C 130

- Central touch screen operation with 3-D visualization
- GMP-compliant machine design for straightforward cleaning and maximum pharmaceutical safety
- Optimum accessibility for easy maintenance, cleaning, product and format changeovers
- Diverse configurations in line or at an angle
- Integration of separate production data acquisition system possible
- Predestined for line integration with the central line control system SCADA
