

SPECIAL OPPORTUNITY

KNIFE SHARPENING AND SETTING ROBOT

Manufacturer	Pallmann
Type	PZSE 14-450
Knife ring diameter	1,400 mm
Knives	66 pcs, 450 mm
Electric controls	Siemens S7, 50 Hz

Available in May 2022!

Major advantages of our robot:

- * **Improved flake quality -> less production cost**
- * **Significant savings in manpower and time compared to manual grinding**
(less working time and staff)
- * **Fully reconditioned machine - all key parts are new**
- * **No need for a dust-free, air-conditioned room**
 - o **Cooling is part of the hydraulics**
 - o **Air conditioner is included in the MCC**
- * **Simple, intuitive operation via touch screen**
- * **Faster and easier knife ring change due to installation using a hydraulic system -**
up to 10 times faster than other systems on the market
- * **Existing rings can be reused provided they are suitable for a robot**
All other rings can be reworked at low cost.
- * **Excellent after-sales service**
- * **Proven operation - top board producers have provided excellent feedback on grinding robots from**
MODUL SYSTEME
