

SORT MAGNET CB

The ASCO® SORT MAGNET CB is the magnetic conveyor-belt separator that captures ferrous materials with magnetic force. With its integrated conveyor belt and strong magnetic field, it safeguards equipment and improves product quality in one streamlined step. Designed for nonstop performance, it keeps your processes clean, safe, and effortlessly efficient. Reliable, fast, and built for demanding environments — precision sorting has never been easier.

△ TECHNICAL DATA

- △ Magnet type: Permanent
- △ Drive power: 400 V / 2,2 kW
- △ Weight: 723 kg
- △ Width: 1,04 m
- △ Length: 1,61 m
- △ Height: 0,35 m
- △ Belt width: 0,65 m
- △ Belt speed: 1,1 m/s
- △ Recommended amperage for fuses: 16 A

△ HIGHLIGHTS

- △ Powerful magnetic separation
- △ Integrated conveyor-belt system
- △ Robust, low-maintenance design
- △ Enhances product quality & equipment protection
