# Abicor Binzel MIG/MAG Welding tractor ABICAR 1200 PRO 42V

**Efficient longitudinal seam welding without compromising quality – welding tractors from ABICOR BINZEL offer a solution for physically demanding manual welding tasks.Designed for producing continuous butt and fillet welds, the system can be used for the following applications when combined with suitable accessories:**

- Welding with oscillation,
- Using welding torches with larger diameter,
- Operating the unit along external edges, lap joints, overhead surfaces, pipes, tanks.

## Scope of delivery

- 1x Welding tractor ABICAR 1200 PRO 42V
- 1x Torch holder with short rod and clamping set
- 2 x Guide arms (Standard)
- 1x SW4 Allen key and operating manual for the unit
- Operation: in combination with the iMIG POWER 400 welding power source (available)

## Technical data

| | |
|---|---|
| Torch type: | MIG/MAG |
| Torch diameter: | 16 – 22 mm |
| Voltage: | 1 ... 42 V, 50/60Hz |
| Power consumption: | 25 W |
| Min. workpiece thickness: | 5 mm, ground clearance 5 mm |
| V horizontal / vertical: | 0 – 120 cm / min, 0 – 110 cm / min |
| Min radius of curvature: | 1.500 mm |
| Dimensions (L x W x H): | 401 x 372 x 236 mm |
| Weight: | 14 kg (welding tractor) |

## Commercial Information

- Condition: new unit, available from stock in original packaging
- Manufacturer: ABICOR BINZEL, Buseck, Germany
- Availability: available from stock, multiple units available
- Warranty: details upon request

- Offer price: Special discounted price available upon request

- A wide range of accessories and additional automation components is available. Please do not hesitate to contact us for further information.
