MIZAR

S SERIES

CABLE STRIPPER MACHINE

MIZAR S series are designed to strip and remove the outer covering material of any cable exposing the internal material. MIZAR cable stripper machine can easily strip and remove the outer covering material of any size cable. Including: Steel Wired Armoured cables (SWA), double steel wired armoured cables, steel tapes, PVC covered cables, lead covered cables, thick rubber covered cables, nylon covered cables, low-grade cables, TT cables and more provide excellent performance. Rotors feed with hydromotors and blades setting supply with hydraulic pistons according to cable of types. With Uddeholm blades, they can shred and strip with longevity. All electrical and electronic components and equipment of MIZAR S series are "SIEMENS and SCHNEIDER". CE and EAC certificates are available.

TECHNICAL SPECIFICATIONS

FEATURE	VALUE
CABLE DIMENSIONS	1-120 mm
CUTTING SPEED	10 Meter / min
ENGINE	5,5 kW
LENGTH	1.350 mm
WIDTH	800 mm
HEIGHT	1.300 mm
WEIGHT	500 Kg

** Production capacity per hour varies depending on the type of material to be processed. The manufacturer reserves the right to make any changes.*

TURNKEY SYSTEMS

MIZAR Semi - Full Automatic Plants, are designed according to the customer needs, in terms of model and positioning. Complete systems combined with professional MIZAR Series and Equipments to provide maximum efficiency. MIZAR offers the possibility of manufacturing a complete tailored system and assured turnkey project, with a variable capacity of infeed materials, starting from 500 kg/h up to 1.500 kg/h.
