

BTS-MF75MK

blue-line

The BTS-MF75MK is the ideal waste baler for compacting your loose cardboard and plastic film waste into a bale of up to 75 kg. Various materials can be collected into two or more chambers installed next to each other and once a chamber is filled the rollable compaction head will be moved over and the material can be baled. By baling these valuable and recyclable materials you achieve a volume reduction of up to 90%, a significant saving on your disposal costs and you properly return the material back into the recycling cycle.

Pressing force: 3.5 Ton
 Bale weight: up to 75 kg (material depending)
 Bale size: 700 H (var.) x 700 W x 500 D mm
 Machine size: 2005 H x 2050 W x 872 D mm
 Machine weight: 562 kg
 Transport height: 2005 mm
 Loading aperture: 700 W x 500 H mm
 Cycle times: 35 seconds
 Motor: 1.5 kW 13 Amp
 Power supply: 220 - 240 V (1 phase)
 Noise level: 68 dB

- User-friendly lever control
- Bale trolley for removing the bales
- Short processing time because there is always a chamber available for loading

- Retainer for reducing the material spring back
- Reel holder for 4 rolls of strapping
- A quality product "Made in Europe"

Suitable for compacting

- Cardboard
- Plastic film and foils
- Cans and light sheet metal containers
- Canisters and light plastic containers
- Clothes
- Light valuable materials

Optional extras

- Machine colour RAL
- Can crusher insert
- PLC auto compaction cycles with bale full light and E-stop with locking key
- Extra chamber (up to 6 chambers in total)
- Strapping rolls
- Power supply 380 - 400 V (3 phase)
