ALFA LAVAL 2 HEAD ASEPTIC FILLER FOR BAGS

SPACE TOTAL DIMENSIONS							
LENGTH	3,600 m	WIDTH	2,450 m	HEIGHT	2,400 m	WEIGHT	0,00 Kg

DESCRIPTION

Compact Aseptic Filler (CAF) is an extremely versatile and robust filling system designed to fill a wide range of food and beverage products into suitable pouches under aseptic conditions. CAF filling units are widely used in the food and beverage industries. Such as: ready-to-drink juices, dense, low-acid food and beverage products (such as milk, milkshakes, sundaes, vegetable and meat extracts) and viscous products containing particles (such as concentrates, syrups and extracts from fruits, citrus and tomatoes).

The filler is designed with accessories suitable for filling bags from 3 to 20 liters.

*** The output may vary depending on the format and product to be filled.**
