

10 B – VIBEMAC 3022 WB 406-1CS Automatic Waistband Sewing Machine – Complete Workstation

Description:

For sale is a VIBEMAC 3022 WB 406-1CS industrial waistband sewing machine, offered as a complete workstation.

This Italian-built unit is specifically designed for high-precision waistband attachment and reinforced seam operations in denim, trousers, and workwear production. The machine produces strong and consistent chainstitch seams and is widely used in professional garment manufacturing environments.

The unit has been in production use and was fully operational until factory shutdown.

The machine has been video recorded in full working condition on 01.04.2026.

VIBEMAC machines are known for their durability, precision, and long operational lifespan, making them a preferred choice in denim production.

Key features:

- Automatic waistband sewing system
- Chainstitch seam for strong and flexible stitching
- Suitable for heavy fabrics (denim, workwear)
- Consistent seam quality and high repeatability
- Designed for continuous industrial use
- Integrated feeding system for stable material handling

Includes:

- VIBEMAC 3022 WB 406-1CS sewing machine head
- Integrated motor and drive system
- Industrial worktable and steel stand
- Foot pedal control
- Thread stand and guides
- Integrated control panel

Technical details:

- Manufacturer: VIBEMAC S.p.A., Italy
- Model: 3022 WB 406-1CS
- Year: 2009
- Stitch type: Chainstitch
- Needle system: 62x57 F120
- Power: 220 / 380V

Condition:

- Used industrial condition
- Fully operational prior to factory shutdown
- Video recorded in operation (01.04.2026)
- Recently serviced (27.02.2026)
- Typical signs of use from production environment
- Sold as-is, where-is, without warranty

Typical applications:

- Waistband attachment (jeans, trousers)
- Reinforced seams
- Heavy-duty garment production

Location:
Valga, Estonia

Removal & transport:
Buyer responsible for dismantling and transport
