Features:

Simple operation for each employee

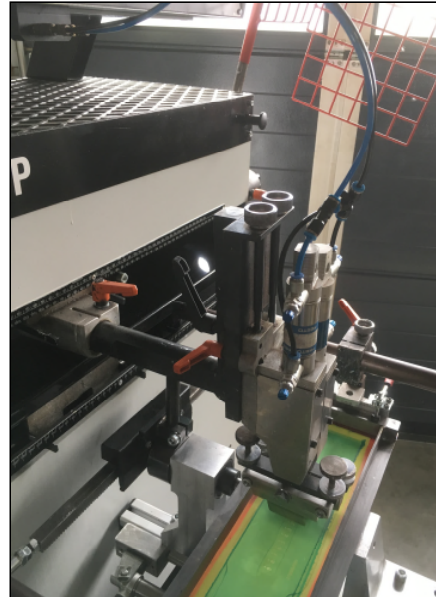

We can adapt the machine to your existing tooling for example from your Kammann machine K10

*Chuck and counterpoint for
fire distungisher*

Simple setup from the screen ant the squeegee

additional benefits:

- Mechanical components are nearly maintenance free.
- Simple handling
- Setup flat to cylindrical: < 30min
- Since the year 2015 we have developed a pneumatical control from Siemens because the pneumatical control are not available anymore.
- The new Siemens control confirm the currently standard worldwide.

Picture only for demonstration
