

Tonello G1 330 HS Industrial Garment Washing & Dyeing Machine (Electrical Control Rebuilt 2014)

High-Capacity 3300 L Industrial Wet-Processing Machine for Denim, Garment Washing & Dyeing

The Tonello G1 330 HS is a high-capacity industrial garment washing and wet-processing machine manufactured by Tonello S.r.l., Italy, one of the world's leading manufacturers of garment finishing technology. Equipped with a 3300-litre stainless steel drum, the machine is designed for large-scale industrial garment washing, dyeing, bleaching, enzyme washing, softening, and stone-wash processing.

This unit (MASI internal reference "Pesumasin No. 3") was used in professional denim production until the factory shutdown.

While the mechanical structure was manufactured in 2000, the complete electrical control system, automation, and operator interface were professionally rebuilt and upgraded in 2014, significantly modernising the machine.

Technical Specifications

- Manufacturer: Tonello S.r.l.
- Model: G1 330 HS
- Machine Type: Industrial Garment Washing & Dyeing Machine
- Serial Number: 1407
- Machine Year: 2000
- Electrical Control System Rebuilt: 2014
- Country of Manufacture: Italy
- Drum Volume: 3,300 litres
- Nominal Capacity: Approximately 330 kg
- Power Supply: 380–400 V, 3-Phase, 50 Hz
- Installed Power:
 - Main machine: 27 kW
 - Electrical upgrade (2014): 14 kW
- Compressed Air Requirement: 7 bar
- Steam Pressure: Maximum 3 bar
- Hydraulic Pressure: 10 bar
- Machine Weight: Approximately 10,000 kg
- Required Supply Cable: 25 mm²

Key Features

- Large-capacity stainless steel drum
- Modernised electrical control system (2014)
- B&R Power Panel touchscreen operator interface
- Programmable washing and dyeing cycles
- Yaskawa Varispeed 616G5 frequency inverter
- Automatic chemical dosing system
- Siemens flow measurement
- Mettler Toledo weighing system
- Steam, water, compressed air, and hydraulic operation
- Heavy-duty industrial construction
- Designed for continuous production environments

Includes

- Tonello G1 330 HS washing machine
- Stainless steel drum
- B&R touchscreen control panel
- Main electrical cabinet
- Yaskawa frequency inverter
- PLC automation system
- Chemical dosing equipment
- Pumps and instrumentation
- Operator control console

Applications

- Denim washing
- Garment washing
- Garment dyeing
- Over-dyeing
- Pigment dyeing
- Enzyme washing
- Stone washing
- Bleaching
- Softening
- Industrial wet processing
- Textile finishing

Condition

- Fully operational prior to factory shutdown, reviously used in professional denim production
- Machine manufactured in 2000
- Complete electrical control system rebuilt in 2014
- Normal cosmetic wear consistent with wet-processing environments
- Available for inspection before dismantling

Location

Valga, Estonia

Dismantling & Transport

Buyer is responsible for dismantling, loading and transportation.

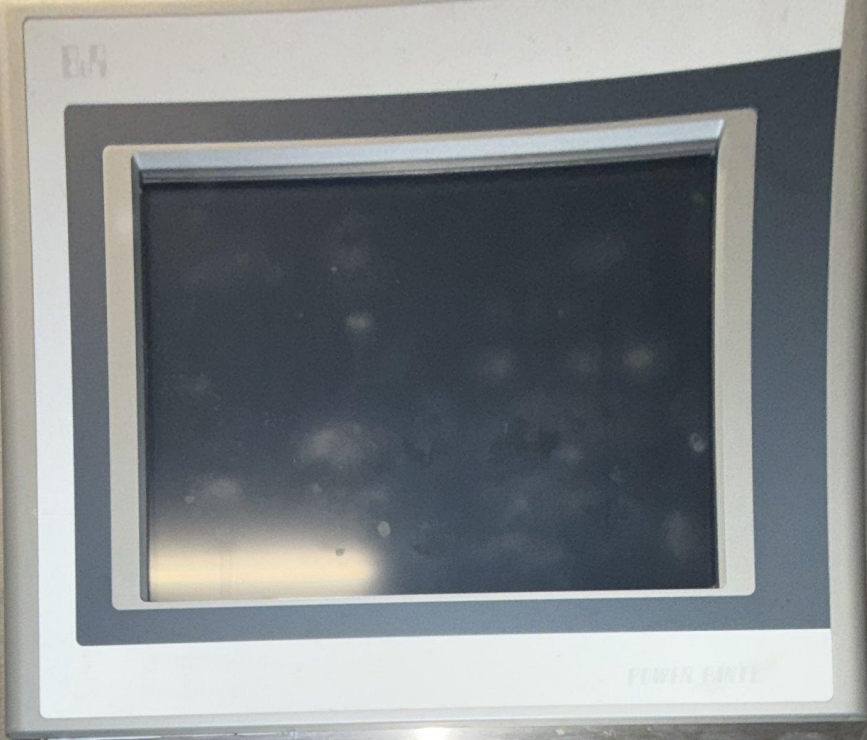

Sales Terms

Sold as-is, where-is, without warranty.

Part of the MASI JEANS factory liquidation.

The machine is available individually or together with the complete Tonello industrial washing and finishing line.
