

BTS-MF550HD

blue-line

The BTS-MF550HD special waste baler is the ideal baler for compacting difficult materials such as scrap tyres, computer monitors CRT, food cans and metal containers, big bags, plastic canisters and plastic packaging, but also car bumpers can be reduced to a minimum of volume with the baler. The special baling press impresses with its ease of use, safe operation and its spacious filling chamber, it is ideal for medium to large amounts of material.

By baling these valuable and recyclable materials you achieve a volume reduction of up to 90%, a significant saving on your disposal costs and you properly return the material back into the recycling cycle.

Pressing force: 50 Ton
 Bale weight: up to 550 kg (material depending)
 Bale size: 1200 H (var.) x 1500 W x 800 D mm
 Machine size: 3570 H x 2115 W x 1200 D mm
 Machine weight: 1935 kg
 Transport height: 2500 mm
 Loading aperture: 1500 W x 780 H mm
 Cycle times: 50 seconds
 Motor: 5.5 kW 16 Amp
 Power supply: 380 - 400 V (3 phase)
 Noise level: 68 dB

- Extra-long dual cylinders for even and early compaction of the material
- User-friendly lever control
- Bale kicker for easy eject the bales

- Extra retainer for reducing the material spring back
- Reel holder for 5 rolls of strapping
- A quality product "Made in Europe"

Suitable for compacting

- Scrap tyres
- Food cans and sheet metal containers
- Canisters and plastic containers / packaging
- Car bumpers
- Big bags
- Cardboard and plastic film / foils
- Other difficult valuable materials

Optional extras

- Machine colour RAL
- PLC auto compaction cycles with bale full light and E-stop with locking key
- Sliding top door
- Strapping rolls / bale wire
- Motor 11 kW 32 Amp
