

The Comac floor cleaner LE 20 II (likely the L20 series) is a walk-behind scrubber-dryer designed for maintenance cleaning of commercial surfaces, such as retail outlets and gyms, up to 1400 sq.m. It features a 51cm working width and is available in a mains-powered electric (LE 20 E) or battery-powered (LE 20 B) version, offering high productivity with low management costs and user-friendly operation. The machine includes a single brush or disc, a squeegee, and a solenoid valve for efficient cleaning.

Key Features and Specifications

- **Type:** Walk-behind scrubber-dryer
- **Working Width:** 51 cm (with a single disc or brush)
- **Application:** Maintenance cleaning of commercial surfaces
- **Ideal For:** Retail outlets, wellness centers, gyms, and medical environments
