

JUKI MO-6700 Series Industrial Overlock Sewing Machines – Factory Matched Production Set (Lot of 5)

Matched Set of Five Modern JUKI MO-6700 Series Overlock Machines from the MASI JEANS Factory

This lot consists of five JUKI MO-6700 series industrial overlock (serger) sewing machines, removed directly from the professional production lines of the former MASI JEANS factory in Estonia.

The JUKI MO-6700 series is one of the world's most widely used modern industrial overlock platforms, renowned for high sewing speeds, clean seam formation and outstanding reliability in demanding garment manufacturing. The lot includes two machines from JUKI's current dry-head MO-6700DA / MO-6704DA series, which eliminates oil staining on the fabric - ideal for premium garments.

All machines were operated in the same professional production facility and maintained under the same factory maintenance program, making this an excellent opportunity to acquire a factory-matched overlock production set with identical operating principles, shared spare parts inventory and simplified maintenance.

These machines are ideally suited for denim manufacturing, jeans assembly, knitwear, workwear, uniforms and other applications requiring fast, durable overedging seams.

Bundle Contents

Machine 1

Model: JUKI MO-6700DA (current dry-head series)

Internal Reference: 42B-07339

Machine 2

Model: JUKI MO-6704DA (current dry-head series)

Class: 0E4-40H

Internal Reference: 19B

Machine 3

Model: JUKI MO-6704S

Year: 2011

Internal Reference: 5B-K694

Machine 4

Model: JUKI MO-6704S

Class: 0E4-40H

Internal Reference: 75A-K562

Machine 5

Model: JUKI MO-6700 Series

Internal Reference: 56A-724

Technical Specifications

Manufacturer: JUKI Corporation

Model Series: MO-6700DA / MO-6704DA / MO-6704S (2 machines) / MO-6700 Series

Machine Type: Industrial Overlock (Serge) Sewing Machine

Country of Manufacture: Japan (MO-6704DA: China)

1-Needle, 3-Thread Overlock Configuration (MO-6704 class)

Maximum Sewing Speed: Up to 7,000 stitches per minute

Built-In Fabric Trimming Knife System

Automatic Lubrication

Dry-Head Technology on MO-6700DA and MO-6704DA – No Oil Staining

Servo Drives / Electronic Controls (JUKI SV-82, JUKI SV-62, EfkA)

Industrial Sewing Tables

Heavy-Duty Steel Stands

Production Benefits

- Factory-matched modern overlock production set
- High-speed overedging with clean, consistent seam formation
- Reliable performance during continuous production
- Reduced operator training requirements
- Common spare parts across the production cell
- Proven Japanese engineering and long-term durability

Why Purchase This Lot

- Five modern professional JUKI overlock sewing machines
- Matching machines from one factory
- Identical MO-6700 platform - one set of spare parts and know-how
- Shared maintenance procedures
- Cost-effective production line setup or expansion
- Ideal for new or expanding garment factories
- Excellent investment for denim and knitwear manufacturers

Applications

- Jeans production
- Denim manufacturing
- Seam serging and overedging
- Knitwear and jersey garments
- Workwear manufacturing
- Uniform production
- Technical garments
- Industrial apparel manufacturing

Condition

Previously used in professional garment production.

All machines remained in operation until the recent closure of the MASI JEANS factory.

Good overall industrial condition with normal cosmetic wear consistent with factory use.

Available for inspection before dismantling.

Location

Valga, Estonia

Dismantling & Transport

Buyer is responsible for dismantling, loading and transportation.

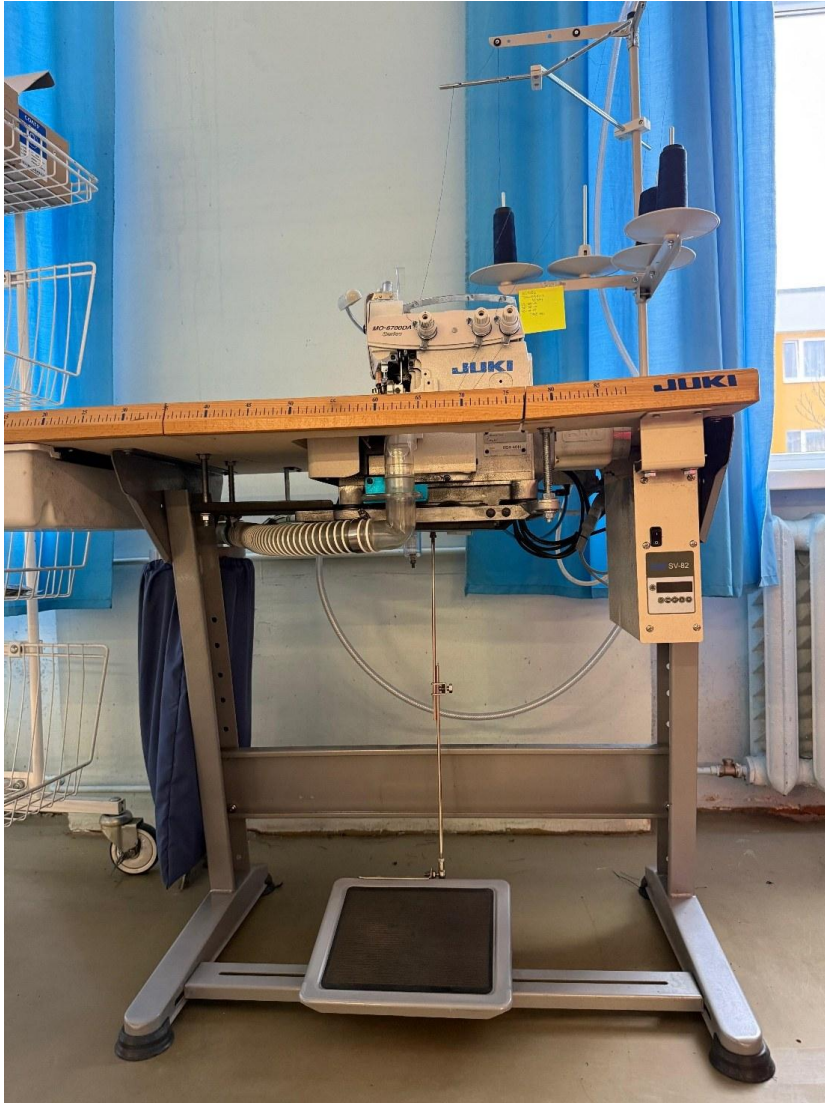

Sales Terms

Sold as-is, where-is, without warranty.

Part of the MASI JEANS factory liquidation.

The machines are offered primarily as one complete factory-matched production set. Individual sales may be considered subject to the prior sale status of the complete lot.

Per-Item Photos**JUKI MO-6700DA Industrial Overlock Sewing Machine [42 B - 07339]**

A photograph of a JUKI MO-6700DA overlock sewing machine mounted on a white table. A wooden ruler is placed horizontally across the table in front of the machine. A red bucket is positioned on the floor to the right of the machine's base. The machine is silver and blue, with 'JUKI' and 'MO-6700DA' printed on it. The background shows a workshop environment with other tables, a green trash bin, and a red coiled cable.
