

## **68 A – Union Special 35800DNU8 Feed-Off-The-Arm Industrial Sewing Machine with Binder & Puller – Complete Workstation**

### Description:

For sale is a Union Special 35800DNU8 feed-off-the-arm industrial sewing machine, offered as a complete workstation with binder and external puller.

This heavy-duty unit is designed for continuous seam operations, edge binding, and reinforcement stitching in denim, workwear, and technical textile production. The feed-off-the-arm construction enables efficient handling of tubular garments such as sleeves and trouser legs.

The machine is equipped with a high-quality Efka electronic motor and control system, providing precise speed control, needle positioning, and reliable performance in industrial environments.

The unit has been used in professional production and was fully operational prior to factory shutdown. Serviced on 27.02.2026.

### Key features:

- Feed-off-the-arm design for tubular and long seam operations
- 3-needle chainstitch configuration (35800DNU8)
- Binder/folder attachment for edge finishing
- External motorized puller for stable material feed
- Efka electronic drive system with precise control
- Pneumatic functions for automated operation
- Heavy-duty industrial construction

### Includes:

- Union Special 35800DNU8 sewing head
- Binder / folder attachment
- External puller unit
- Efka motor and control system
- Industrial table and stand
- Foot pedal
- Thread stand
- Pneumatic components

### Technical details:

- Manufacturer: Union Special Corporation (USA)
- Model: 35800DNU8
- Machine type: Feed-off-the-arm industrial sewing machine
- Stitch type: Chainstitch (3-needle)
- Motor: Efka electronic servo motor
- Control: Efka control unit
- Voltage: 230V
- Pneumatic system required

### Condition:

- Used industrial condition
- Fully operational prior to shutdown
- Serviced on 27.02.2026

- Typical signs of use
- Sold as-is, where-is, without warranty

Typical applications:

- Edge binding
- Reinforcement seams
- Denim and workwear production
- Technical textiles
- Long continuous seam sewing

Location:

Valga, Estonia
