AB-5axis Water Jet

1. Cutting head can auto swing 0-± 10° , eliminate the tilt of upper and lower surfaces, ensure the cutting being more precise.
2. Shuttle 5axis water jet has special function of corner deceleration, makes the complex design being more beautiful.
3. New structure of cutting head, can be better water-proof and sand-proof; and better protect water jet elements and increase their service life.
4. It is widely used in stones inlay, ceramic tiles inlay, metal vertical cutting industry.

Parameters of AB-5aixs:

Model		SH-2015	SH-2515	SH-3015	SH-3515	SH-3020	SH-3520	SH-4020
Regular Cutting Size		2000*1500mm	2500*1500mm	3100*1500mm	3500*1500mm	3100*2000mm	3500*2000mm	4000*2000mm
A B axis Cutting Angles		0-± 10°						
Accuracy	Cutting	± 0.1mm						
	Repeatability	± 0.02mm						
Power supply		220v / 380v / 415v AC, 50hz / 60hz
