# In detail

## Hammer mills

For the milling of all types of grains and for silage of grain and sweetcorn.

- Powder-coated steel design
- Enormous grinding output due to large sieve surface and high hammering count.
- Easily replaceable sieve for foreign-particle separation with various hole diameters ranging from one to twelve millimetres (KH3).
- Motor-protection switch with ampere meter
- With automatic switching, membrane switch and automatic overrun on request.
- Minimal heating of the ground product
