

ASCO® CB 3000 / 5000 / 8000

ASCO® CB 3000 / 5000 / 8000

FACTSHEET | ASCO® CB 3000 / 5000 / 8000 | 2026

PRODUCT DESCRIPTION

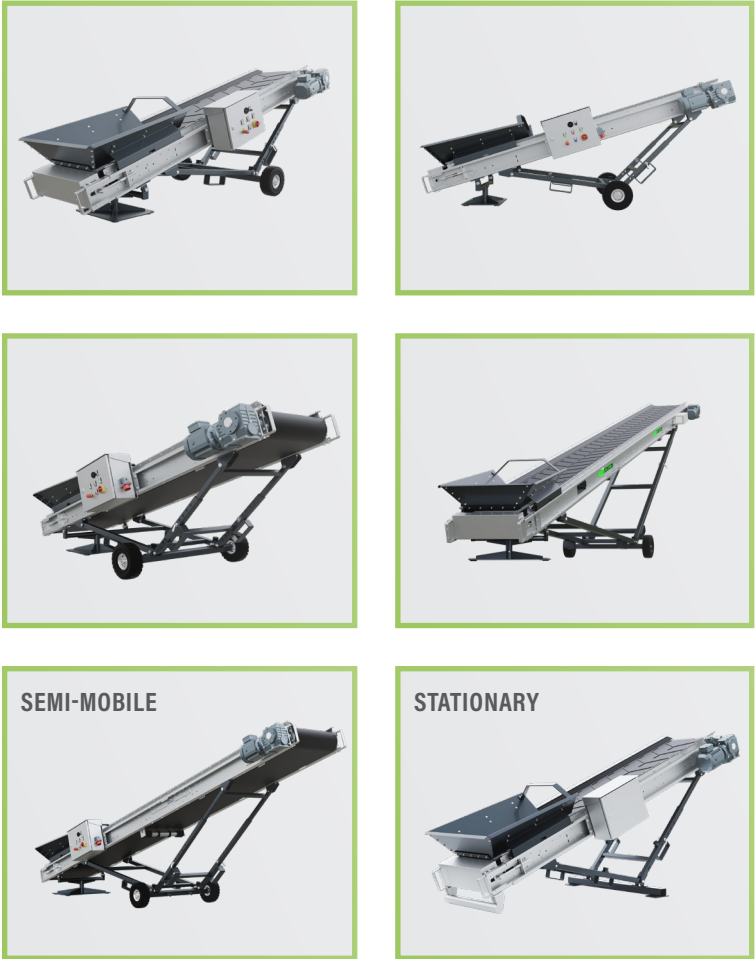

The ASCO® CB 3000 / 5000 / 8000 Conveyor belt is a robust and powerful conveying system, ideally suited for a wide range of transport applications across various industries.

Available in 3 m, 5 m, and 8 m lengths, they provide reliable material flow and can be seamlessly integrated into screening, recycling, and processing lines. Their durable construction, adjustable belt speed, and high conveying capacity ensure efficient, continuous operation in demanding industrial environments.

TECHNICAL DATA

SPECIFICATIONS	VALUE
Speed	Up to 210 cm/s
Capacity	120 / 110 / 100 m³/h
Belt Width	0.6 m
Hopper Length	0.8-1.6 m
Hopper Capacity	0.2 or 0.5 m³
Drive Power	400 V / 2.2 kW
Weight	565 / 760 / 1060 kg
Width	1.3 / 1.2 / 1.2 m
Length	3.4 / 5.0 / 8.0 m
Height	0.82 m
Recommended amperage for fuses	16 A
If connection to a supply protected by an RCD is required, a suitable RCD type B or equivalent protective measure shall be provided by the customer.	

GALLERY

AVAILABLE IN MULTIPLE LENGTHS

Choose from 3 m, 5 m, or 8 m versions to suit your operation.

ADJUSTABLE BELT SPEED

Easily adapt the conveying speed to match different materials and process requirements.

ROBUST CONSTRUCTION

Built with durable components for reliable performance in demanding environments.

HIGH MATERIAL THROUGHPUT

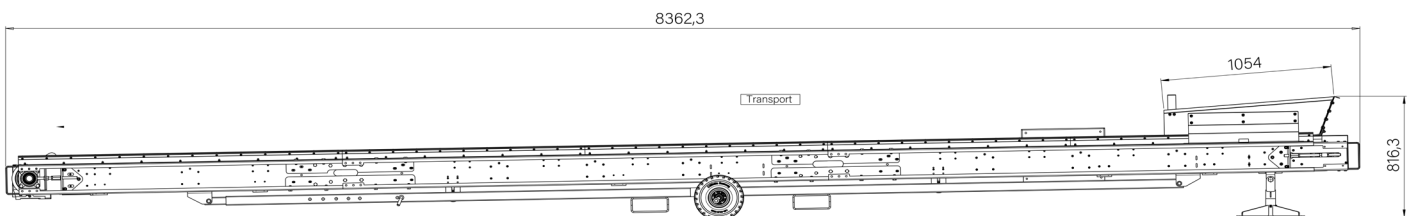

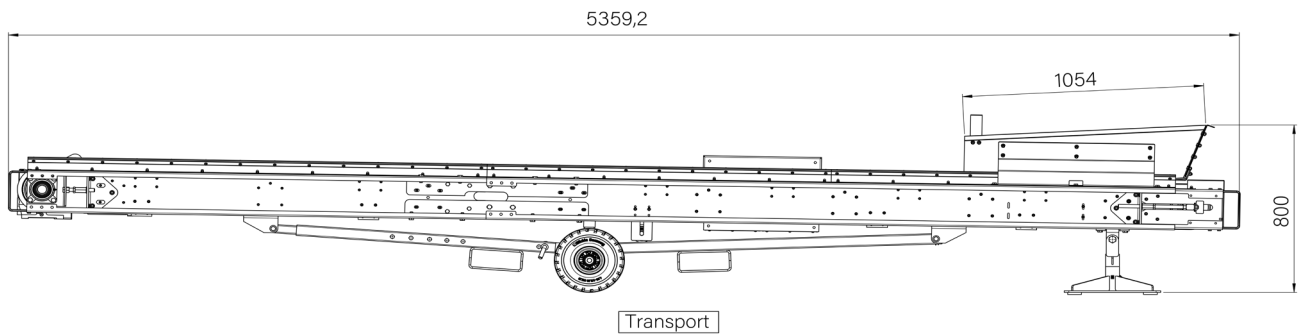

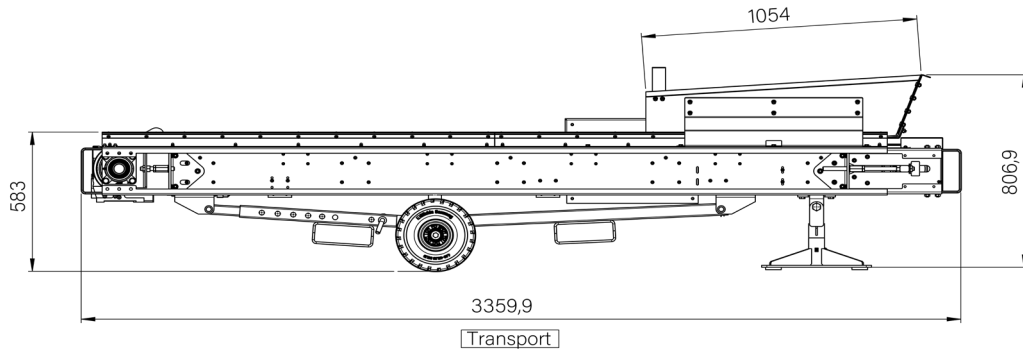

FLEXIBLE APPLICATIONS

Suitable for handling aggregates, soil, biomass, recycled materials, and more.

ASCO Technology GmbH, based in Austria, is a specialist in modular screening and processing solutions. The company develops and manufactures high-quality machines for processing materials such as soil, sand, gravel, wood chips, recycling materials, and construction waste. With a strong focus on innovation, flexibility, and in-house production, ASCO Technology provides practical and efficient solutions tailored to a wide range of applications.

The product portfolio includes trommel screens, vibratory screens, grizzly screens, conveyor systems, and shredding technology. In addition to its machinery, ASCO Technology also offers services such as engineering, spare and wear parts, contract manufacturing, and technical support. This combination makes the company a reliable partner for customers looking for durable, efficient, and adaptable processing technology.
