

THE HIGH END TECHNOLOGY!

The **MAGLEV** ,MAGNETIC LEVITATION
LINEAR MOTOR!
Highest precision, **NO BELT**

Ricoh Gen6 Printheads

Work area: 2500×1300mm
Printheads: 2-9 RICOH GEN6 industrial heads

Print speeds:

- Production: 24-100 m/h
- Quality: 16-70 m/h
- Super quality: 12-45 m/h

Resolution: 1200 dpi

Printing technology: Piezoelectric Dropping System

Ink type: LED UV

ColorsStandard: CMYK +White +Varnish

Ink tank capacity2.5L

Software: Onyx, Colorgate, SAI Production Manager, Caldera

Operating system: Windows 10&11 64bit

File format: Tiff, Jpeg, PostScript, PDF and others

Material thickness: 0-20cm

Platform/tableVacuum zones: 4 independent printing areas

on media of different dimensions

MaterialsAcrylic, wood, glass, ceramics, metal, PVC, industrial foil, etc.

Material fixation system:LED UV lamp

Dimensions of the printer: 4165mm(L)*2000mm(W)*1530mm(H)

Package size: 4400mm(L)*2250mm(W)*1850mm(H)

Printer Weight: 700kg

Package weight: 1000 kg

Adaptive parameters - power supply6000 W, 28 A / 220 VAC, single phase,

50 Hz, 32 A, AIR: 0.8 Bar

Operating temperature20-30°C

Relative humidity: 45-65%, no condensation or dust in the room

Warranty: 12 month
