

# REMAV Recycling sieve RS1500

The REMAV RS1500 mobile drum screen has proven efficient in practice for more than 15 years in many types of applications.

Powerful, low maintenance and minimal space requirements - with the RS1500 you screen your material directly on site and save on transport, landfill costs and the repurchase of your recycled material.

**Ideally suited for excavated material, wood chips, compost or humus directly on the spot!**

As a car trailer (maximum weight 2.5 tons) it is easy to transport with an 80 km/h permit.

**Its benefits:**

- Immediate further processing
- Huge time savings
- Minimal space needed
- Own Power Supply

Optionally stationary with electrical connection available.
