

Brother FB-N210 / FA-V92A Industrial Overlock Sewing Machines – Factory Matched Production Set (Lot of 5)

Matched Set of Five Brother Industrial Overlock Machines from the MASI JEANS Factory

This lot consists of five Brother industrial overlock (serger) sewing machines, removed directly from the professional production lines of the former MASI JEANS factory in Estonia.

Brother's industrial overlock machines are known worldwide for dependable high-speed operation, clean seam formation and low maintenance requirements. The lot combines two Brother FB-N210 4-thread overlock machines (2012) with three Brother FA-V92A-5050 4-thread overlock machines (2009) - one closely matched platform generation.

All machines were operated in the same professional production facility and maintained under the same factory maintenance program, making this an excellent opportunity to acquire a factory-matched overlock production set with common operating principles, shared spare parts inventory and simplified maintenance.

Ideally suited for denim manufacturing, jeans assembly, knitwear, workwear and other applications requiring fast, durable overedging seams.

Bundle Contents

Machine 1

Model: Brother FB-N210 (4-thread)

Year: 2012

Internal Reference: 37B-7268

Machine 2

Model: Brother FB-N210 (4-thread)

Year: 2012

Internal Reference: 36B-7267

Machine 3

Model: Brother FA-V92A-5050-55-E3V

Year: 2009

Internal Reference: 4B-7212

Machine 4

Model: Brother FA-V92A-5050-55-E3V

Year: 2009

Internal Reference: 30B-7213

Machine 5

Model: Brother FA-V92A-5050-57-E3V

Internal Reference: 31B-7214

Technical Specifications

Manufacturer: Brother Industries, Ltd.

Model Series: FB-N210 (2 machines) / FA-V92A-5050 (3 machines)
Machine Type: Industrial 4-Thread Overlock (Sergers) Sewing Machine
Country of Manufacture: Japan
4-Thread Overlock Configuration
Built-In Fabric Trimming Knife System
Automatic Lubrication
Industrial Sewing Tables
Heavy-Duty Steel Stands
Professionally serviced (ERMACO ISM service partner)

Production Benefits

- Factory-matched Brother overlock production set
- One platform generation - common parts and know-how
- High-speed overedging with clean seam formation
- Reliable performance during continuous production
- Reduced operator training requirements

Why Purchase This Lot

- Five professional Brother overlock machines
- Matching machines from one factory
- Complete overlock capacity for a production line from one source
- Shared maintenance procedures and spare parts inventory
- Cost-effective production line setup or expansion

Applications

- Jeans production
- Denim manufacturing
- Seam serging and overedging
- Knitwear and jersey garments
- Workwear manufacturing
- Uniform production
- Industrial apparel manufacturing

Condition

Previously used in professional garment production.

All machines remained in operation until the recent closure of the MASI JEANS factory.

Good overall industrial condition with normal cosmetic wear consistent with factory use.

Available for inspection before dismantling.

Location

Valga, Estonia

Dismantling & Transport

Buyer is responsible for dismantling, loading and transportation.

Sales Terms

Sold as-is, where-is, without warranty.

Part of the MASI JEANS factory liquidation.

The machines are offered primarily as one complete factory-matched production set. Individual sales may be considered subject to the prior sale status of the complete lot.
