

JUKI DDL-8500 / DDL-8700 Industrial Single-Needle Lockstitch Sewing Machines – Factory Matched Production Set (Lot of 6)

Professional Production Set of Six JUKI Industrial Sewing Machines from the MASI JEANS Factory

This lot consists of six JUKI DDL Series industrial single-needle lockstitch sewing machines, removed directly from the production lines of the former MASI JEANS factory in Estonia.

The JUKI DDL-8500 and DDL-8700 Series are among the world's most widely used industrial sewing machines, renowned for their reliability, smooth operation and consistent stitch quality. Designed for continuous production environments, they are an excellent choice for garment manufacturers seeking dependable, high-speed sewing equipment.

Because all machines operated in the same factory, this matched production set offers consistent performance, common spare parts, simplified maintenance and identical operating principles, making it ideal for expanding an existing production line or establishing a new sewing department.

Bundle Contents

Machine 1

Model: JUKI DDL-8700-7

Internal Reference: 6A

Machine 2

Model: JUKI DDL-8700-7

Internal Reference: 109A-7078

Machine 3

Model: JUKI DDL-8500

Year: 2002

Internal Reference: 113A-7101

Machine 4

Model: JUKI DDL-8500-7

Year: 2001

Internal Reference: 26B-7049

Machine 5

Model: JUKI DDL-8700-7

Internal Reference: 27B-7088

Machine 6

Model: JUKI DDL-8700-7

Year: 2002

Internal Reference: 28B-7090

Technical Specifications

Manufacturer: JUKI Corporation

Model Series: DDL-8500 / DDL-8700

Machine Type: Industrial Single-Needle Lockstitch Sewing Machine

Country of Manufacture: Japan

Maximum Sewing Speed: Up to 5,000 stitches per minute

Fully Automatic Lubrication System

Complete Industrial Workstations

Heavy-Duty Steel Stands

Five machines equipped with the JUKI "-7" electronic automation package featuring:

- Automatic Thread Trimming
- Automatic Backtacking
- Automatic Needle Positioning

Key Features

- Factory-matched production set
- Six professional JUKI industrial sewing machines
- High-speed, reliable industrial performance
- Excellent stitch quality for continuous production
- Common spare parts and maintenance procedures
- Complete workstations ready for installation
- Proven Japanese engineering

Applications

- General garment manufacturing
- Denim and jeans production
- Workwear and uniforms
- Shirts and sportswear
- Medium-weight woven fabrics
- Industrial apparel manufacturing

Condition

Previously used in professional garment production.

All machines remained operational until the scheduled closure of the MASI JEANS factory.

Good overall industrial condition with normal cosmetic wear consistent with factory use.

Available for inspection before dismantling.

Location

Valga, Estonia

Dismantling & Transport

Buyer is responsible for dismantling, loading, transportation, and all associated costs.

Sales Terms

Sold as-is, where-is, without warranty.

Part of the MASI JEANS factory liquidation.

The machines are offered primarily as one complete factory-matched production set. Individual sales may be considered subject to the prior sale status of the complete lot.
